1812-446

Date of  
09/18/00

NOTICE OF PESTICIDE:  
x Registration,    Reregistration  
(under FIFRA, as amended)

Term of Issuance: Conditional

Name of Pesticide Product:  
Chlorpyrifos 6MUP

Name and Address of Registrant (include ZIP Code):

Griffin L.L.C  
2509 Rocky Ford Road/P.O. Box 1847  
Valdosa, GA, 31601

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.
2. Make the following label changes before you release the product for shipment:
  - A. Revise the EPA Registration Number to read, "EPA Reg. No. 1812-446".
3. Submit three copies of the final printed label for the record before you release the product for shipment.

As requested in your letter of July 5, 2000, the conditions of paragraph 10 of the June 2000 Memorandum of Agreement between the Environmental Protection Agency and the signatory registrants regarding the registration of the pesticide products containing Chlorpyrifos are accepted by the Agency as conditions of the subject registration.

Failure to comply with any of the conditions of registration set forth in Paragraph 10 the MOA shall be grounds for cancellation of the affected registration(s) under FIFRA section 6(e).

If the conditions enumerated above are not complied with, the registration will be subject to cancellation in accordance with FIFRA Section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A copy of the label stamped "accepted" is enclosed for your records (Reg. No. 1812-446) on the label)

Signature of Approving Official:

Akiva Abramovitch, Ph.D.  
Chemist

# CHLORPYRIFOS 6MUP Insecticide

An Insecticide for formulating use only.

**Active Ingredient:**

Chlorpyrifos: O,O-diethyl O-(3,5,6-trichloro-2-pyridyl) phosphorothioate..... 62.5%

**Inert Ingredients:\***

Total..... 37.5%

Total..... 100.0%

\*Contains aromatic petroleum distillate

**KEEP OUT OF REACH OF CHILDREN**

## WARNING - AVISO

Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle. (If you do not understand the label, find someone to explain it to you in detail.)

### STATEMENT OF PRACTICAL TREATMENT

**If swallowed:** Call a physician or Poison Control Center immediately. Do not induce vomiting. Rinse mouth with water. Dilute by giving 1 or 2 glasses of water. Do not give anything by mouth to an unconscious person.

**If on skin:** Wash with plenty of soap and water. Get medical attention.

**If Inhaled:** Remove victim to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. Get medical attention.

**If in eyes:** Immediately flush with plenty of water. Obtain medical attention if irritation occurs and persists.

#### Note to Physician

Chlorpyrifos is a reversible cholinesterase inhibitor. Atropine sulfate is antidotal. Start treatment by giving 2 mg atropine by injection after cyanosis is overcome and repeat atropine at 0.4 to 2 mg every 15 minutes until atropinization is achieved (tachycardis, flushing, dry mouth and mydriasis). Oximes, such as 2-PAM/protopam, are also antidotal, but only in conjunction with atropine. Observe to insure symptoms do not recur as atropinization wears off. Morphine, theophylline, phenothiazines and reserpine are probably contraindicated. This product also contains lightweight aromatic hydrocarbons that can produce a severe pneumonitis if aspirated during emesis. Consideration should be given to gastric lavage with endotracheal tube in place. Treatment is controlled by removal of exposure followed by antidotal, symptomatic and supportive care.

For medical emergencies involving this product, call toll free (888) 324-7598.
