Contents 15 oz. Net Weight

FUMOL CORPORATION • Long Island City, New York 11101

EPA Reg. No. 1814-31

FUMOL "ONE SHOT"

Fumol "One Shot" will treat an area of 11,000 cu. ft. Use additional cans for larger areas. Fumol "One Shot" delivers a blanket of insect-killing fog automatically and effectively.

DIRECTIONS: Remove pets from area. Shut doors and windows. Extinguish all flames. Foods should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using. Leave closets, cupboards and other areas exposed, where insects may nest or harbor. Place Fumol "One Shot" on a stand, table, or other raised surface. Spread some paper under can to protect area near the nozzle. **PRESS BUTTON FORWARD AND SNAP CLIP OVER THE LIP OF THE CONTAINER.** Leave area at once. The entire contents of the container will release automatically. Allow fog to remain in area for at least twenty minutes.

CAUTION: Vacate premises during treatment. Apply only when the facility is not in operation. Ventilate area after treatment. Exposure to temperatures over 120 F., or discarding the container in fire or incinerator may cause the container to burst. Keep out of reach of children.
