

DIRECTIONS FOR USE —

General — Apply with a low-pressure sprayer equipped with a coarse spray nozzle. Spray surfaces only until wet. Avoid excessive run-off. Apply to all insect breeding sites and harborages. Also treat adjacent exposed surfaces where insects may crawl when they come out of hiding. Repeat as necessary.

Cockroaches — Thoroughly treat the infested area. Spray baseboards, cracks and crevices; around window and door frames; the under surfaces of shelves, drawers, and work tables; behind and beneath cabinets; refrigerators, sinks and stoves; in and around waste containers, switch panels, junction boxes, floor drains and other places where cockroaches hide or nest.

Ants — Apply to trails and places where ants enter premises such as window and door sills. Spray hills and runways outdoors.

Cadellles, cigarette beetles, dermestids, drugstore beetles, Indian meal moths, Mediterranean flour moths, red flour beetles, saw-toothed grain beetles and weevils (Exposed stages) — Thoroughly treat floors and the walls of the infested area with attention to cracks, crevices, corners and perimeters. Sanitation and dust control are of primary importance. Fumigate or destroy infested products.

Silverfish — Apply to localized areas infested by these insects.

Brown dog ticks — Spray sleeping quarters of pets, around baseboards, window and door frames, wall cracks, and local areas of floors. Repeat as needed. Fresh bedding should be placed in animal quarters after spraying. Do not spray animals.

Clover mites, crickets, earwigs, millipedes, centipedes, scorpions and spiders — Thoroughly spray the interior and exterior perimeter of the infested premises. For clover mite give special attention to treatment around window frames.

Fleas, Flies, Gnats, Mosquitoes, and sandflies (Outside only) — Spray infested areas thoroughly including outside surfaces of screens, doors, window frames, foundations, patios and other areas where insects may enter.

FUMOL RESIDUAL SPRAY

CONTAINS BAYGON

FOR INDUSTRIAL AND INSTITUTIONAL USE

Fumol Residual Spray is a highly effective ready to use formulation for control of the insects listed below. This product drives insects from their hiding places, gives rapid kill and residual activity.

ACTIVE INGREDIENTS

o - Isopropoxyphenyl Methylcarbamate	1.00%
Petroleum distillate	84.00%

INERT INGREDIENTS

15.00%

*U.S. Patent No. 3,111,539

BAYGON is a Reg. TM of the German Trademark proprietor, Leverkusen.

Kills — Ants, brown dog ticks, centipedes, cockroaches, clover mites, crickets, earwigs, fleas, flies, gnats, millipedes, mosquitoes, sandflies, scorpions, silverfish, and spiders.

Exposed stages of Cadellles, Cigarette Beetles, Dermestids, Drugstore Beetles, Indian Meal Moths, Mediterranean Flour Moths, Red Flour Beetles, Saw-Toothed Grain Beetles and Weevils.
