Directions For Use In Swimming Pools

Initial Dose: Add 1 gallon 5% BTC 2125M Swimming Pool Algaecide to 25,000 gallons of pool water.
Maintenance Dose: Add 1 quart 5% BTC 2125M Swimming Pool Algaecide to 25,000 gallons of pool water.

Initial dose is used when filling pool at the beginning of swimming season. If pool has visible algae growth, treat with the initial dose. Vacuum pool after 24 hours to remove algae debris. If the algae is still present or reappears repeat the treatment procedure as necessary. When pool is free of algae, use the recommended maintenance dose.

Maintenance dose should be added at 3-5 day intervals. If high temperatures prevail or pool has unusually heavy use, add maintenance dose more frequently.

If make-up water is added at the rate of more than 10% per week of pool capacity, add 1 quart of 5% BTC 2125M for each week 5,000 gallons of fresh make-up water added per week.

When swimming season is over, add 1 gallon of 5% BTC 2125M to 25,000 gallons of water in treating water left in pool. This dose helps provide a measure of control of algae growth during the winter months. This treatment will also help the servicing of the pool before it is returned to use the following season. When 5% BTC 2125M is used as directed it will kill and prevent development of *Chlorella pyrenoidosa* (green), *Phormidium mundatum* (black algae), *Phormidium retzii* (Square D algae), *Lyngba versicolor* (blue-green) and other swimming pool algae.

5% BTC 2125M is compatible with most commonly used swimming pool chemicals, but should not be mixed with soap or other water-treating chemicals. 5% BTC 2125M works best when added by itself directly to pool water. 5% BTC 2125M at use dilution is non-corrosive to inanimate surfaces.

Directions for use in Spas/Whirlpools/Hot Tub Baths

Initial Dose: Add 25.6 ounces of 5% BTC 2125M Swimming Pool Algaecide per 5,000 gallons of water. Initial dose is used upon filling of Spa/Whirlpool/Hot Tub Bath.

Maintenance Dose: Add 6.4 ounces of 5% BTC 2125M Swimming Pool Algaecide per 5,000 gallons of water. Maintenance dose should be added at 3-5 day intervals. If high temperatures prevail or Spa/Whirlpool/Hot Tub Bath has unusually heavy use, add maintenance dose more frequently.

Drain and clean Spa/Whirlpool/Hot Tub Bath at least once a month or as needed depending on bather load.

NET CONTENTS

PRECAUTIONARY STATEMENTS

Keep out of reach of children and domestic animals.

DANGER

Keep out of reach of children. Corrosive. Causes severe eye and skin damage. Do not get in eyes or skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.

FIRST AID

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIAN

Probable mucosa damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

**ENVIRONMENTAL HAZARDS
FISH AND WILDLIFE PRECAUTIONS**

This pesticide is toxic to fish. Do not discharge into lakes, streams, ponds, or public waters. Do not contaminate water by cleaning of equipment or disposal of waste.

STORAGE AND DISPOSAL

- DO NOT CONTAMINATE WATER, FOOD OR FEED BY STORAGE OR DISPOSAL
 - OPEN DUMPING IS PROHIBITED
 - DO NOT REUSE EMPTY CONTAINER
- PESTICIDE DISPOSAL:** Pesticides or mixtures that cannot be used or chemically reprocessed should be disposed of in a landfill approved for pesticide or buried in a safe place.
- CONTAINER DISPOSAL:** Triple rinse (or equivalent) and dispose in a recycler or landfill approved for pesticide containers, or bury in a safe place.

ONYX
CHEMICAL
COMPANY

**ONYX 10% BTC 2125M Industrial
Water Cooling Tower Algaecide
(EPA #1839-91)**

Onyx 10% BTC 2125M Industrial Water Cooling Tower Algaecide is a concentrated algaecide used for industrial recirculating water cooling towers. 10% BTC 2125M helps keep water cooling tower system clear and free of visible algae slimes. When 10% 2125M is used as directed it aids in control and/or prevention of the development of unsanitary slime conditions which are unsightly, produce foul odors, and which are often the cause of equipment breakdown.

FORMULATION

BTC 2125M (50%)	20.0%
Water	80.0%
	TOTAL 100.0%

SUMMARY

- Effective algaecide in cooling towers
- Controls algae slimes

WARRANTY

Our recommendations for use of this product are based on tests believed to be reliable. The use of this product being beyond the control of the manufacturer, no warranty, expressed or implied, is made as to the effects of such or the results to be obtained if not used in accordance with directions, restrictions and safe practice. The user must assume all responsibility, including injury or damage, resulting from its misuse as such or in combination with other materials. Statements concerning the use of these products are not to be construed as recommending the infringement of any patent and no liability for infringement is assumed if any such use is assumed.
