

ONYX CD 1.6

(EPA #1839-50)

Onyx CD 1.6 is designed for heavy industrial cleaning where both cleaning and sanitizing are of prime importance. Onyx CD 1.6 provides cleaning, sanitizing and deodorizing of hard to clean surfaces at 2 ounces per gallon of water. At 4.0 ounces per gallon of water, Onyx CD 1.6 is a disinfecting agent against Staphylococcus aureus and Salmonella choleraesuis. Onyx CD 1.6 when used for sanitization of food contact items at 200 ppm active, does NOT REQUIRE a Potable Water Rinse.

FORMULATION

BTC [®] 2125M (50%)	3.2%
Sodium Metasilicate Anhydrous	2.4%
Perma Kleer 100	2.5%
Neutronyx 656	5.0%
Tetrapotassium Pyrophosphate Anhydrous	5.0%
Water	81.9%
TOTAL	100.0%

MAY 10 1973
1839-50

SUMMARY

Onyx CD 1.6 cleaner-disinfectant type product prepared to contain 1.6% active BTC[®] 2125M and formulated as previously described demonstrates:

Bactericidal activity at 4.0 ounces per gallon of water (500 ppm active BTC[®] 2125M) against Staphylococcus aureus ATCC #6538 and Salmonella choleraesuis ATCC #10708

Bactericidal activity at 5.6 ounces per gallon of water (700 ppm active BTC[®] 2125M) against Pseudomonas aeruginosa ATCC #15442

WARRANTY

Our recommendations for use of this product are based upon tests believed to be reliable. The use of this product being beyond the control of the manufacturer, no warranty, expressed or implied, is made as to the effects of such or the results to be obtained if not used in accordance with directions or established safe practice. The buyer must assume all responsibility, including injury or damage, resulting from its use as such, or in combination with other materials. Statements concerning the use of these products are not to be construed as recommending the infringement of any patent, and no liability for infringement arising out of any such use is assumed.

USE DIRECTIONS:

Disinfection

For heavy duty cleaning and disinfecting and fungicidal activity against pathogenic fungi, use 4.5 ounces per gallon.

For best results, use (Name) with a cloth or mop and apply to walls, floors, table tops and counters.

Sanitization

For light duty cleaning, sanitizing and deodorizing, use 2 ounces per gallon. If used for sanitization of previously cleaned food contact items, limit the level to 200 ppm of quaternaries (8 ounces per 5 gallons of water).

NO RINSE REQUIRED

For extra heavy industrial cleaning and sanitizing, use a second application.

Do not mix with soap or anionic solutions.

(Name) is non-corrosive in use dilutions on inanimate hard surfaces.

PHENOL COEFFICIENTS:

Guaranteed	Minimum
S. aureus	14
S. typhosa	9

SPECIMEN LABEL

ONYX CD 1.6

(RIGHT PANEL)

(Name) is a heavy duty cleaner and disinfectant designed for general purpose use where heavy duty cleaning and sanitizing is of prime importance. When used as directed, (Name) will remove most household dirt and grime in a single, simple application. When used for industrial cleaning, follow the use directions shown on the left side panel.

Not recommended for *Pseudomonas aeruginosa*.

For sanitization of previously cleaned food processing equipment or food contact items, limit the active quaternaries to 200 ppm (8 ounces per 5 gallons of water).

DANGER

Keep Out of Reach of Children. Corrosive. Causes severe eye and skin damage. Do not get in eyes, on skin or on clothing. Protect eyes and skin when handling concentrate. Harmful if swallowed. Avoid contamination of food.

FIRST AID

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, drink milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Call a physician.

Rinse empty container thoroughly with water and discard.
