DIRECTIONS FOR USE

General Classifications

It is a violation of Federal Law to use this product in a manner inconsistent with the labeling.

Onyx 10% BTC 2125M Industrial Water Cooling Tower Algaecide is designed to prevent algae growth in industrial water cooling systems.

Initial Dose: 1/2 gallon 10% BTC 2125M per 1000 gallons of water contained in the system. Repeat at 30 day intervals.

When system is in control, add:

Periodic Dose: 1/3 quart 10% BTC 2125M per 1000 gallons of water contained in the system every 30 days. If no visible growth appears, 1/3 quart 10% BTC 2125M per 1000 gallons of water contained in the system every 60 days. If an anionic detergent is used, use 1/3 quart 10% BTC 2125M per 1000 gallons of water contained in the system when uniform mixing with detergent.

Do not be alarmed if the sudden appearance of organic debris in the system during the first week of periodic dosing, and is a good indication that 10% BTC 2125M has been fully penetrated and dissolved. This debris is organic matter which tenaciously adheres to metal and will not be removed by matter. This debris will be removed from the system by the clogging of screens and pipes.

When 10% BTC 2125M is used as directed, it will not harm, and/or prevent the development of, any microorganisms which are unsightly, produce foul odors, and which are often the cause of equipment breakdown. 10% BTC 2125M is compatible with virtually all corrosion inhibitors and should not be used in the presence of soap or other anionic detergents. 10% BTC 2125M at use dilution is not corrosive to inanimate hard surfaces.

10% BTC 2125M Industrial Water Cooling Tower Algaecide

ACTIVE INGREDIENTS

1,2,4-Trichloro-5,6-Dichloro-3,4-Dihydro-2,5-Dithienyl-1,1-Dioxide
1,2,4-Trichloro-5,6-Dichloro-3,4-Dihydro-2,5-Dithienyl-1,1-Dioxide
1,2,4-Trichloro-5,6-Dichloro-3,4-Dihydro-2,5-Dithienyl-1,1-Dioxide

NET CONTENTS

ACCEPTED

FEB 17 1983

Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 1531-91

PRECAUTIONARY STATEMENTS

Keep out of Reach of Children. Causes severe eye and skin irritation. Do not get in eyes or on skin. Wear protective clothing when handling. Harmful to fish and wildlife. Avoid contamination of food.

STATEMENT OF PRACTICAL TREATMENT

In case of contact with eyes, flush eyes with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin, or other non-alcoholic drink. Large quantities of water are also recommended. Call physician immediately.

NOTE TO PHYSICIAN

Be alert for signs of poisoning, and control the use of gastric lavage. Measures against electrolyte shock as well as oxygen and glucose to support the patient manually or mechanically. If the patient is unconscious, resuscitation may be controlled by mechanical ventilation. Administer a short acting barbiturate if necessary.

ENVIRONMENTAL HAZARDS FISH AND WILDLIFE PRECAUTIONS

This product is toxic to fish. Do not pour large quantities of this product into any body of water. Do not contaminate water by cleaning the equipment used in application.

STORAGE AND DISPOSAL

- DO NOT CONTAMINATE WATER, FOOD OR FEED BY STORAGE OR DISPOSAL
- OPEN DUMPING IS PROHIBITED
- DO NOT REUSE EMPTY CONTAINER

Pesticide Disposal

Pesticide containers should be cleaned, reused or chemically reprocessed and then disposed of in a landfill. Do not pour for pesticides or herbicides in a safe place away from water supplies.

Container Disposal

Do not reuse empty container for other products. Return to drain recorder, or destroy by puncturing, crushing and burying in a safe place.

COMPANY

**ONYX 10% BTC 2125M
Swimming Pool Algaecide
(EPA # 1839-92)**

Onyx 10% BTC 2125M swimming pool algaecide is a concentrated swimming pool algaecide which keeps pool water free and clear of visible algae. Controls algae slime in both swimming pools and outside spa whirlpool hot tub baths.

When Onyx 10% BTC 2125M swimming pool algaecide is used as directed, it will kill and prevent development of *Chlorella pyrenoidosa* (green), *Phormidium inundatum* (black algae), *Phormidium retzii* (Square D Algae), *Lyngba versicolor* (blue-green) and other swimming pool algae.

FORMATION

BTC 2125M (50%)	20.0%
Water	80.0%
TOTAL	100.0%

SUMMARY

Effective algaecide in swimming pools

Effective algaecide in outside spa whirlpool hot tub baths

— Controls Algae Slimes

WARRANTY

The Onyx 10% BTC 2125M swimming pool algaecide is warranted to be free from defects in material and workmanship for a period of 12 months from the date of purchase. If the product is found to be defective within this period, the manufacturer will, at its option, either replace the product or refund the purchase price. This warranty is limited to the product and does not cover labor or other charges. The warranty is void if the product is used in accordance with the directions on the label. The manufacturer assumes no liability for damages or losses of any kind resulting from the use of this product.
