Directions for Use in Swimming Pools

Initial Dose: Add 1 gallon 10% BTC 2125M swimming pool algaecide to 50,000 gallons of pool water.

Maintenance Dose: Add 1 quart 10% BTC 2125M swimming pool algaecide to 50,000 gallons of pool water

Initial dose is used when filling pool at beginning of swimming season. If pool has visible algae growth, treat with initial dose. Vacuum pool after 24 hours to remove algae debris. If visible algae are still present or re-appear, repeat this treatment procedure as necessary. When pool is free of visible algae, use the recommended maintenance dose.

Maintenance dose should be added at 3-5 day intervals. If high temperatures prevail or pool has unusually heavy use, add maintenance dose more frequently.

If make-up water is added at the rate of more than 10% per week of pool capacity, add 1 quart of 10% BTC 2125M for each 10,000 gallons of fresh make-up water added per week.

When swimming season is over, add 1 gallon of 10% BTC 2125M to 50,000 gallons of water in treating water left in pool. This dose helps provide a measure of control of algae growth during the winter months. This treatment will also help the servicing of the pool before it is returned to use the following season.

When 10% BTC 2125M is used as directed, it will kill and prevent development of *Chlorella pyrenoidosa* (green), *Phormidium inundatum* (black algae), *Phormidium retzii* (Square D Algae), *Lyngba versicolor* (blue-green) and other swimming pool algae.

10% BTC 2125M is compatible with most commonly used swimming pool chemicals, but should not be mixed with soap or other water-treating chemicals. 10% BTC 2125M works best when added by itself directly to pool water. 10% BTC 2125M at use dilution is non-corrosive to inanimate surfaces.

Directions For Use in Spas/Whirlpools/Hot Tub Baths:

Initial Dose: Add 12.8 ounces of 10% BTC 2125M Swimming Pool Algaecide per 5,000 gallons of water. Initial dose is used upon filling of Spa/Whirlpool/Hot Tub Bath.

Maintenance Dose: Add 3.2 ounces of 10% BTC 2125M Swimming Pool Algaecide per 5,000 gallons of water. Maintenance dose should be added at 3-5 days intervals. If high temperatures prevail or Spa/Whirlpool/Hot Tub Bath has unusually heavy use, add maintenance dose more frequently.

Drain and clean Spas/Whirlpool/Tub Bath at least once a month or as needed depending on bather load.

10% BTC 2125M swimming pool algaecide

Concentrated Swimming Pool Algaecide

Keeps Pool Water Clear and Free of Visible Algae.

Controls Algae Slime in both swimming pools and outside Spa/Whirlpool/Hot Tub Baths

ACTIVE INGREDIENTS:

n-Alkyl (60% C₁₄, 30% C₁₆, 5% C₁₂, 5% C₁₈)

dimethyl benzyl

ammonium chloride 5.0%

n-Alkyl (68% C₁₂, 32% C₁₄)

dimethyl ethylbenzyl

ammonium chloride 5.0%

INERT INGREDIENTS: 90.0%

TOTAL 100.0%

PRECAUTIONARY STATEMENTS

Hazards To Humans and Domestic Animals

DANGER

Keep Out Of Reach Of Children. Corrosive. Causes severe eye and skin damage. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.

FIRST AID

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIAN

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

ENVIRONMENTAL HAZARDS FISH AND WILDLIFE PRECAUTIONS

This pesticide is toxic to fish. Do not discharge into lakes, streams, ponds or public waters. Do not contaminate water by cleaning of equipment or disposal of waste.

STORAGE AND DISPOSAL

-DO NOT CONTAMINATE WATER, FOOD OR FEED BY STORAGE OR DISPOSAL

-OPEN DUMPING IS PROHIBITED

-DO NOT REUSE EMPTY CONTAINER

PESTICIDE DISPOSAL: Pesticides that cannot be used or chemically reprocessed should be disposed of in a landfill approved for pesticide or buried in a safe place.

CONTAINER DISPOSAL: Triple rinse (or equivalent) and dispose in an incinerator or landfill approved for pesticide containers, or bury in a safe place.
