**DIRECTIONS FOR USE
 GENERAL CLASSIFICATION**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Onyx Powder Detergent/Disinfectant has been designed specifically for Hospitals, Nursing Homes, and other institutions where housekeeping is of prime importance.

DISINFECTION-To disinfect hard inanimate surfaces (such as walls, floors, table top), add one packet Onyx Powder Disinfectant (1 ounce) per 2 gallons of warm water. Stir gently for uniform solution. Apply solution with mop, cloth, sponge or mechanical sprayer so as to wet all surfaces thoroughly. Allow to remain wet for 10 minutes and then let air dry.

For heavily soiled areas, a pre-cleaning step is required and recommended. Prepare a fresh solution for each use.

MILDEWSTAT-To control mold and mildew on unexposed, hard nonporous surfaces (such as floors, walls, table tops) add one packet Onyx Powder (1 ounce) per 2 gallons of water. Apply solution with a cloth, mop, or sponge making sure to wet all surfaces completely. Let air dry. Prepare a fresh solution for each use. Repeat application at weekly intervals or when mildew growth reappears.
