NET CONTENTS: 48 water soluble packets,
each containing 1 ounce of product.

Onyx Powder is a phosphate free concentrated detergent/disinfectant
which provides effective cleaning, degreasing, and disinfection. Onyx
Powder has been designed specifically for Hospitals, Nursing Homes, and
other institutions where housekeeping is of prime importance in con-
trolling the hazard of cross contamination.

Onyx powder when diluted at the rate of 1 oz. per 2 gallons of water is
an effective disinfectant against the organism *Pseudomonas*
aeruginosa and meets all requirements for hospital use. When used as
directed, Onyx Powder is formulated to disinfect inanimate hard
surfaces such as walls, floors, sink tops, tables, chairs, and bed
frames. For larger areas such as operating rooms, patient care
facilities, and restrooms, the product is designed to provide both
general cleaning and disinfecting.

In addition, Onyx Powder deodorizes those areas which generally are
hard to keep fresh smelling, such as garbage storage areas, empty
garbage bins and cans, and any other areas which are prone to odors
caused by microorganisms.

DISINFECTION-When used as directed, Onyx Powder exhibits effective
disinfectant activity against the following:

<i>Pseudomonas aeruginosa</i> PRD-10	<i>Brevibacterium ammoniagenes</i>
<i>Escherichia coli</i>	<i>Streptococcus faecalis</i>
<i>Klebsiella pneumoniae</i>	<i>Shigella dysenteriae</i>
<i>Salmonella schultzei</i>	<i>Staphylococcus aureus</i>
<i>Salmonella choleraesuis</i>	<i>Enterobacter aerogenes</i>

At this level the product is also fungicidal against the pathogenic
fungi, *Trichophyton mentagrophytes*.

Efficacy tests have demonstrated that Onyx Powder is an effective
bactericide, and fungicide, in the presence of organic soil
(5% blood serum).

MOLD AND MILDEWSTAT-Onyx Powder Detergent/Disinfectant prevents and
controls mold and mildew and the odors they cause on hard non-porous
inanimate surfaces.

STORAGE AND DISPOSAL

- DO NOT CONTAMINATE WATER,
FOOD OR FEED BY STORAGE
OR DISPOSAL
- OPEN DUMPING IS PROHIBITED
- DO NOT REUSE EMPTY CONTAINER

PESTICIDE DISPOSAL-Pesticides that cannot be used or chemically re-
processed should be disposed of in a landfill approved for pesticides
or buried in a safe place.

CONTAINER DISPOSAL-Triple Rinse (or equivalent) and dispose in an
incinerator or landfill approved for pesticide containers, or bury
in a safe place.
