DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

PT 3.2 Pine Odor Disinfectant formulated with a quaternary-pine oil combination, is a broad spectrum bactericide and fungicide designed specifically for homes, schools, motels and other non-medical institutions where housekeeping is of prime importance. This formulation provides effective cleaning, deodorizing and disinfection of walls, floors, and any inanimate surfaces. When used as directed, PT 3.2 will also deodorize those areas which generally are hard to keep fresh smelling, such as garbage pails, sink tops and bathroom areas including toilet bowls and urinals which are prone to odors caused by the growth of microorganisms.

PT 3.2 Pine Odor Disinfectant may also be used as a general cleaner for areas where a fresh pine scent is desirable.

DISINFECTION - To disinfect previously cleaned, inanimate, hard surfaces add 2 ounces of PT 3.2 Pine Odor Disinfectant per gallon of water. Apply solution with a mop, cloth sponge or mechanical sprayer so as to wet thoroughly. Allow to remain wet for 10 minutes and then let air dry.

For heavily soiled areas, a pre-cleaning step is required. Prepare a fresh solution for each use.

To disinfect toilet bowls, pre-clean the bowl, flush toilet and add 2 ounces PT 3.2 Pine Odor Disinfectant directly to the bowl water. Swab the bowl completely using a scrub brush or toilet mop, making sure to get under the rim. Let stand for 10 minutes and flush.

BACTERICIDAL ACTIVITY - When diluted at the rate of 2 ounces per gallon of water, PT 3.2 Pine Odor Disinfectant exhibits effective disinfectant activity against the organisms: Staphylococcus aureus, Salmonella choleraesuis, and Escherichia coli.

FUNGICIDAL ACTIVITY - When diluted at the rate of 2 ounces per gallon of water, PT 3.2 Pine Odor Disinfectant is effective against the pathogenic fungi, Trichophyton mentagrophytes.

Under the Federal Insecticide,
Fungicide, and Rodenticide Act,
as amended, for the use of
registered under
EPA REG. NO. 1839-98

PRECAUTIONARY STATEMENTS HAZARD TO HUMANS AND DOMESTIC ANIMALS.

WARNING

Keep out of reach of children. Causes eye and skin irritation. Do not get in eyes, on skin or on clothing. Harmful if swallowed. Avoid contamination of food. Wash thoroughly with soap and water after handling.

STATEMENT OF PRACTICAL TREATMENT

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, drink egg whites or gelatin solution, or if these are not available, drink large quantities of water. Call a physician.

NOTE TO PHYSICIAN

Probable mucosal damage may contraindicate the use of gastric lavage.

STORAGE AND DISPOSAL

DO NOT CONTAMINATE WATER, FOOD, OR FEED BY STORAGE OR DISPOSAL.

STORAGE - Store in a dry place no lower in temperature than 50°F or higher than 120°F.

CONTAINER DISPOSAL - Do not reuse empty container. Triple rinse empty container with water. Return metal drum then offer for reconditioning or puncture and dispose of in a sanitary landfill, or by other procedures approved State and local authorities. Plastic containers may be disposed of in a sanitary landfill, incinerated, or if allowed by local authorities, by burning. If burned stay out of smoke.

PESTICIDE DISPOSAL - Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.
