

**DIRECTIONS FOR USE
GENERAL CLASSIFICATION**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Onyx Veterinarian Type Disinfectant is designed specifically for use on walls, floors, operating tables, cages, crates, feeding and watering equipment and furniture in animal hospitals, pet animal quarters, kennels and animal laboratories.

DISINFECTION: For disinfecting, add 10 ml to one gallon of water, apply solution with a mop, cloth, sponge or mechanical sprayer so as to wet all surfaces thoroughly. Allow to remain wet for 10 minutes and then let air dry.

For heavily soiled or contaminated area, a precleaning step is recommended. Prepare a fresh solution for each use.

For feeding and water equipment RINSE WITH POTABLE WATER after disinfecting.

Mildewstat-To control mold and mildew on pre-cleaned hard non-porous surfaces (such as floors, walls, table tops) add 10 ml VTD to 1 gallon of water. Apply solution with a cloth, mop, or sponge making sure to wet all surfaces completely. Let air dry. Prepare a fresh solution for each use. Repeat application at weekly intervals or when mildew growth reappears.

**PRECAUTIONARY STATEMENTS
HAZARD TO HUMANS AND DOMESTIC ANIMALS**

DANGER

Keep Out of Reach of Children. Causes severe eye and skin damage. Do not get in eyes, skin or on clothing. Harmful if swallowed. Wear goggles or face shield and rubber gloves when handling. Avoid contamination of food. Remove and wash contaminated clothing.

STATEMENT OF PRACTICAL TREATMENT

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, drink milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Call a physician.

NOTE TO PHYSICIAN

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

NET CONTENTS

Onyx Veterinarian Disinfectant is designed for animal hospitals, animal laboratories, and kennels. When used as directed, VTD is formulated to disinfect, deodorize and clean inanimate hard surfaces (such as walls, floors, sink tops, kennel runs, operating tables, cages, feeding and watering equipment and furniture). In addition, Onyx Veterinarian Disinfectant deodorizes those areas which generally are hard to keep fresh smelling such as garbage storage areas, empty garbage bins and cans, and any other areas which are prone to odors caused by microorganisms.

DISINFECTION: When used as directed, Onyx Veterinarian Disinfectant demonstrates effective disinfection against the following:

Pseudomonas aeruginosa	Streptococcus faecalis
Escherichia coli	Shigella dysenteriae
Klebsiella pneumoniae	Enterobacter aerogenes
Salmonella schultzei	Staphylococcus aureus
Salmonella choleraesuis	

HOSPITAL DISINFECTIONS: When used as directed, Onyx Veterinarian Disinfectant is an effective disinfectant against Pseudomonas aeruginosa in animal hospitals and laboratories.

Virucidal* Activity: The product when used at the disinfection dilution rate on environmental inanimate hard surfaces exhibits effective virucidal activity against Canine Distemper, Pseudorabies virus, Vaccinia virus, Influenza A₂, Herpes simplex, and Adeno virus Type 5.

Efficacy test have demonstrated that Onyx Veterinarian disinfectant is an effective bactericide, fungicide (against pathogenic fungi) and virucide* in the presence of organic soil (5% blood serum).

Mold and Mildewstat- Onyx Veterinarian Disinfectant prevents and controls mold and mildew and the odors they cause on hard non-porous inanimate surfaces.

STORAGE AND DISPOSAL

- DO NOT CONTAMINATE WATER
- FOOD OR FEED BY STORAGE OR DISPOSAL
- OPEN DUMPING IS PROHIBITED
- DO NOT REUSE EMPTY CONTAINER

Pesticide Disposal- Pesticides that cannot be used or chemically reprocessed should be disposed of in a landfill approved for pesticide or buried in a safe place.

Container Disposal- Triple rinse (or equivalent) and dispose in an incinerator or landfill approved for pesticide containers, or bury in a safe place.
