

DIRECTIONS FOR USE IN SWIMMING POOLS

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Initial Dose: add 1 gallon 5% BTC 99 Swimming Pool Algaecide to 25,000 gallons of pool water.

Maintenance Dose: add 1 quart 5% BTC 99 Swimming Pool Algaecide to 25,000 gallons of pool water.

Initial dose is used when filling pool at beginning of swimming season. If pool has visible algae growth, treat with initial dose. Vacuum pool after 24 hours to remove algae debris. If visible algae are still present or reappear, repeat this treatment procedure as necessary. When pool is free of visible algae, use the recommended maintenance dose.

Maintenance dose should be added at 3-5 day intervals. If high temperatures prevail or pool has unusually heavy use, add maintenance dose more frequently.

If make-up water is added to the rate of more than 10% per week of pool capacity, add 1 quart of 5% BTC 99 for each 5,000 gallons of fresh make-up water added per week.

When swimming season is over, add 1 gallon 5% BTC 99 to 25,000 gallons of water in treating water left in pool. This dose helps provide a measure of control of algae growth during the winter months. This treatment will also help the servicing of the pool before it is returned to use the following season.

When 5% BTC 99 is used as directed, it will kill and prevent development of *Chlorella pyrenoidosa* (green), *Phormidium inundatum* and *Phormidium retzii* (blue-green algae), *Lyngba versicolor* (blue-green) and other swimming pool algae. 5% BTC 99 is compatible with most commonly used swimming pool chemicals, but should not be mixed with soap or other water-treating chemicals. 5% BTC 99 works best when added by itself directly to pool water. 5% BTC 99 at use dilution is non-corrosive to most metal surfaces.

5% BTC 99 Swimming Pool Algaecide

Concentrated Swimming Pool Algaecide
Keeps Pool Water Clear and Free of Visible Algae.

Controls Algae Slime in both Swimming Pools
and outside Spas Whirlpools Hot Tub Baths

ACTIVE INGREDIENT:

Didecyl dimethyl ammonium chloride 5.0%

INERT INGREDIENT:

..... 95.0%

TOTAL 100.0%

DIRECTIONS FOR USE IN OUTSIDE SPAS/ WHIRLPOOLS/HOT TUB BATHS

Initial Dose: Add 2.5 ounces of 5% BTC 99 per 500 gallons of water. Initial dose is used upon filling of Spa/Whirlpool/Hot Tub Bath.

Maintenance Dose: Add ¼ ounces of 5% BTC 99 Swimming Pool Algaecide per 500 gallons of water. Maintenance dose should be added at 3-5 day intervals. If high temperatures prevail or Spa/Whirlpool/Hot Tub Bath has unusually heavy use, add maintenance dose more frequently.

Drain and clean Spa/Whirlpool/Hot Tub Bath at least once a month or as needed depending upon bather load.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic invertebrates. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying in writing the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PHYSICAL OR CHEMICAL HAZARDS

Do not use or store near heat or open flame.

STORAGE AND DISPOSAL

DO NOT CONTAMINATE WATER, FOOD, OR FEED BY STORAGE OR DISPOSAL.

STORAGE: Store in a dry place no lower in temperature than 50°F or higher than 120°F.

PESTICIDE DISPOSAL --- Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL --- Do not reuse empty container. Triple rinse empty container with water. Return metal drum then offer for reconditioning or puncture and dispose of in a sanitary landfill, or by other procedures approved by State or local authorities. Plastic containers may be disposed of in a sanitary landfill, incinerated or, if allowed by local authorities, by burning. If burned, stay out of smoke.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER

KEEP OUT OF REACH OF CHILDREN. Causes severe eye and skin damage. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.

STATEMENT OF PRACTICAL TREATMENT

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIAN

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock as well as oxygen and measures to support breathing manually or mechanically may be needed. If persistent, convulsions may be controlled by the cautious intravenous injection of a short-acting barbiturate drug.
