	TERM OF ISSUANCE	
NOTICE OF PESTICIDE: <input checked="" type="checkbox"/> REGISTRATION <input type="checkbox"/> REREGISTRATION (Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)		
NAME OF PESTICIDE PRODUCT		

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

L

Litchman Company
 20 West Frontan Road
 Northfield, IL 60063

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA Section 3(c)(7)(B) provided that you:

1. Submit/cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.

2. Make the labeling changes listed below before you release the product for shipment:

a. On The Front Panel:

1. Add The Phrase "E.P.A. Registration No. 1839-142"
2. Delete the statement "Only for Sale To, Use, and Storage By Service Persons".

b. On The Side Panel:

1. Revise the heading "First Aid" to read:
"Statement of Practical Treatment"
2. Delete the word "milk".

SIGNATURE OF APPROVING OFFICIAL	DATE
---------------------------------	------

3. The accelerated storage and stability data for 60 days is acceptable on an interim basis. The results of 12 month storage and stability test must be received by the Agency within 15 months after the granting of the registration.

4. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely yours,

John H. Lee
Product Manager (31)
Antimicrobial Program Branch
Registration Division (H7504C)

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

BTC 2125M-P40 will sanitize previously cleaned and rinsed, non-porous, food contact surfaces such as tanks, chopping blocks, counter blocks, counter tops, drinking glasses and eating utensils. When used at recommended concentration (200 ppm, no potable water rinse is required.

Sanitization: To sanitize previously cleaned and rinsed non-porous food contact surfaces prepare a 200 ppm active quaternary BTC 2125M-P40 solution by dissolving 0.625 ounces net weight into 10 gallons of water or 1.25 ounces net weight into 20 gallons of water.

To sanitize immobile items (such as tanks, chopping blocks, counter tops), flood the area with 200 ppm BTC 2125 M-P40 solution or apply with a cloth or sponge, making sure to wet all surfaces completely for at least 60 seconds. Let air dry. Prepare a fresh solution for each use.

To sanitize mobile items (such as drinking glasses, eating utensils), immerse in 200 ppm BTC 2125M-P40 solution for at least 60 seconds making sure to immerse completely. Remove and let air dry. Prepare a fresh solution daily or more frequently as soils are apparent.

Used as directed, BTC 2125M P-40 Sanitizer Concentrated Powder is an effective sanitizer when diluted in water up to 750 ppm hardness (CaCO₃).
