Amanda Burwell
Regulatory Specialist for,
Stepan Company
22 Frontage Road
Northfield, IL 60093

Subject: PRIA Label Amendment – Addition of SARS-CoV-2
Product Name: Stepan Spray Disinfectant Concentrate
EPA Registration Number: 1839-248
Received Date: August 25, 2021
Action Case Number: 00318508

Dear Ms. Burwell:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. Pursuant to 40 CFR 156.10(a)(6), you must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. See FIFRA section 2(p)(2). If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process, FIFRA section 12(a)(1)(B). Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Assurance.

Page 2 of 2

EPA Reg. No. 1839-248

Action Case No./Decision No. 00318508

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Karen M. Leavy by phone at (202)-566-0668, or via email at Leavy.Karen@epa.gov.

{Note to Reviewer: In accordance with 40 CFR 156.68(d), all first aid statements, as prescribed, will appear on the front panel of the product label.}

FIRST AID	
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.	
If in Eyes:	<ul style="list-style-type: none"> Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
If on Skin or Clothing:	<ul style="list-style-type: none"> Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call poison control center or doctor for treatment advice.
If Swallowed:	<ul style="list-style-type: none"> Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.
If Inhaled:	<ul style="list-style-type: none"> Move person to fresh air. If person is not breathing, call 911 or an ambulance then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.
(HOTLINE NUMBER You may contact (xxx) xxx-xxxx for emergency medical treatment information.)	

NOTE TO PHYSICIAN

Probable mucosal damage may contraindicate the use of gastric lavage.

(Note to reviewer: Only one of the following statements is required. Referral to "Directions for Use" is required when directions for use are only found in booklet. Choose applicable statement noted in curly bracket.)

See (side) (back)(s) panel for additional precautionary statements.

Bracketed information is denoted as: { insert as noted }, (optional text), [required qualifier].
 The term "this product" used throughout this document may be replaced with the marketed product brand name.
 The term "x" is a place holder for numerical digits.
 Punctuation and plural/singular word forms may be adjusted to allow for grammatical correctness.
 Appropriate metric or imperial unit conversion may be added as optional supplemental information.

MARKETING CLAIMS

General

- Clean(er)(ing)
- Disinfect(ant)(ing)
- Detergent
- Virucide*
- Tuberculocidal¹
- Fungicide [against pathogenic fungi]
- Mildewcide
- Deodorize(r)(s)
- Kills Germs
- Removes Mold & Mildew
- Effective cleaning (strength)(power)
- Concentrate(d)
- Phosphorous free
- Free of phosphates
- Contains no abrasives
- Does not (bleach)(strip color from) surfaces
- One-Step Disinfectant, Germicidal Cleaner and Deodorant^{2 β}
- (This product is) a no rinse non-food contact surface disinfectant cleaner that disinfects, cleans and deodorizes in one (easy) (labor saving) step^{2 β}.
- Hospital disinfectant
- Refill(pack)(container)(bottle)(size)
- For Home, Hospital, Institutional, and Industrial Use
- Leaves {insert use site or surface}{see SURFACES & USE SITES table} (smelling) clean and fresh
- This product saves time, labor, and cost.
- This product is an economical concentrate (that can be used with {(mechanical spray device)(hand pump)(low pressure coarse)} trigger sprayers)
- (Clean)(and)(Disinfect) after spills!
- (Clean)(and)(Disinfect) hard, non-porous surfaces following a spill [(involving bodily fluids) OR (of bodily fluids)]
- An effective (cleaner and disinfectant) following a spill [(involving bodily fluids) OR (of bodily fluids)]
- (Helps) protect (employees)(staff) involved (with)(in) the cleanup of ~~(spills)(spills containing potentially infectious material)~~ spill(s) [(involving bodily fluids) OR (of bodily fluids)]
- (Can be used to)(Helps) (employers)(institutions) comply with OSHA's bloodborne pathogen standard
- Contains supplies needed (for)(to clean up)(x) spill(s)
- (Can be (used)(sold) with)(includes): (gloves)(latex gloves)(nitrile gloves)(vinyl gloves)(masks)(face masks)(trigger spray(bottle)(nozzle))([insert product brand name])(scoops)(scoop/scraper)([insert color]disposal bags)(absorbent material)(fluid control solidifier)(shoe covers)(twist ties)(spatula)(paper towels)(disposable towels)(bonded wipes)(wipes)(aprons)(carrying case)(gowns)(goggles)(eye shield with ear loop mask)(bonnet)
- <Note to reviewer> Label may identify X amount of each individual item listed above.*
- This product is a no rinse non-food contact surface disinfectant cleaner that disinfects, cleans and deodorizes in one labor saving step^{2 β}.
- Cooling Coils Disinfectant Cleaner
- This product is a (non-abrasive) (one-step^{2 β}) disinfectant cleaner for (small air conditioner) (commercial air handling unit) (HVAC) cooling coils and (refrigeration equipment) (refrigerator) (freezer) evaporation coils⁴. When using this product to disinfect and clean (cooling coils) (evaporation

- coils), disconnect power to the unit before applying product.
- This product cleans, shines, deodorizes and disinfects² all hard non-porous surfaces listed on the label. It inhibits the growth of (fungi or mold) and mildew, leaving bathrooms clean and fresh smelling.
- This product will not scratch (showers) (tubs) (shower doors) (fixtures) (and) (toilet bowls).
- For plastic and painted surfaces, spot test on an inconspicuous area before use.
- For best [cleaning][disinfection] results, always test a small inconspicuous area first.

DISINFECTION CLAIMS

- This product, when used as directed, is formulated to disinfect hard, non-porous, environmental surfaces (including) [insert use site or surface see SURFACES & USE SITES table]
- This product is for use (in) (on) {insert use site or surface, see SURFACES & USE SITES table}.
- For Use (in) (on) {insert use site or surface, see SURFACES & USE SITES table}.
- This product is a (phosphate-free) (non-bleaching) formulation designed to provide effective cleaning, deodorizing, and disinfection (for)(of)[insert use site or surface, see SURFACES & USE SITES table] where housekeeping is of prime importance in reducing cross contamination
- Use this product to (clean) (and) (disinfect) non-porous {insert use site or surface, see SURFACES & USE SITES table }.
- For large areas such as {insert use site or surface, see SURFACES & USE SITES table } this product is designed to (clean and disinfect)(provide both general cleaning and disinfecting)
- Disinfects against {insert pathogen from Microorganism table}
- Kills {insert pathogen from Microorganism table}
- (2)(Two) (3) (Three) (5) (Five) minute hospital disinfectant
- Kills 99.9%² of Germs
- Meets OSHA Bloodborne Pathogen Standard for HIV, HBV & HCV
- Kills 99.9%² of bacteria in (just) (2)(two) (3) (5) minutes
- Kills (99.9%²) of Bacteria (Household Bacteria⁵)
- Kills 99.9%² of Viruses* (Bacteria) (and) (Fungi#) on hard, non-porous household surfaces
- This product is a 2 (3) (5) minute hospital disinfectant (effective in the presence of hard water and organic serum)
- Effective in the presence of 5% serum contamination
- Effective in presence of 250 ppm Hard Water (calculated as CaCO₃)
- Effective in 2 (3) (5) minutes in presence of Hard Water and 5% serum
- This product is a one-step^β disinfectant that is effective against a broad spectrum of bacteria (is *virucidal (including HIV-1, HCV and HBV))(, and inhibits the growth of (fungi or mold) and mildew) and their odors when use as directed.
- (This product is) a broad-spectrum germicidal cleaner and deodorant that is effective at 1:32 (1 ounce per 32 ounces total volume) (equivalent use dilution) in the presence of 250 ppm hard water (calculated as CaCO₃) plus 5% organic blood serum.
- (This product is) tuberculocidal in 5 (10) minutes†
- This product kills the organism that causes tuberculosis†
- Efficacy tests have demonstrated that this product is an effective Bactericide, Fungicide, *Virucide, Tuberculocide and Mildewcide in water up to 250 ppm hardness (as CaCO₃) in the presence of organic soil (5% blood serum).
- Kills HIV-1, HCV and HBV on pre-cleaned environmental surfaces/objects previously soiled with blood/body fluids in health care settings (Hospitals, Nursing Homes) or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the

potential for transmission of Human Immunodeficiency Virus Type 1 (associated with AIDS), Hepatitis C Virus (HCV) and Hepatitis B Virus (HBV).

- Kills Pandemic 2009 H1N1 Influenza A virus (formerly called swine flu)
- Efficacy tests have demonstrated that this product is an effective bactericide, fungicide, virucide, tuberculocide, and mildewcide in water up to 250ppm hardness (as CaCO₃) in the presence of organic soil (5% blood serum).
- Kills (Rhinovirus) (Norovirus) in 2 (3) (5) minutes
- Kills Flu Virus
- Kills Rhinovirus, in 2 (3) (5) minutes!

- | |

- (This product) (Product Name) is a broad-spectrum, hard non-porous surface disinfectant that has been shown to be effective against SARS-CoV-2 (COVID-19 virus tested and listed on the label)

FUNGI / MOLD / MILDEW CLAIMS

- Kills 99.9%² of (fungus)(fungi) in (just) 2 (3) (5) minutes[#]
- Removes (mildew stains)(mold stains)
- Kills athlete's foot fungus
- Kills fungus may cause (ringworm)(ringworm of the foot) [#]
- Kills Trichophyton interdigitale (may cause (ringworm)(ringworm of the foot))
- Kills Candida albicans (may cause of thrush)

DEODORIZING & CLEANING CLAIMS

- Deodorizing Formula
- (Easily) Removes Soap Scum
- All Purpose Cleaner
- Eliminates Odors
- Cleans and Deodorizes in One Easy Step
- Cuts (Tough) Grease and Grime (without Scrubbing)
- This product deodorizes areas that are hard to keep (smelling) fresh, such as {insert use site or surface, see SURFACES & USE SITES table }
- This product deodorizes {insert use site or surface, see SURFACES & USE SITES table } (,and other areas which are prone to odors caused by microorganisms)
 - (When used as directed)This product (deodorizes)(will deodorize) surfaces {insert use site or surface, see SURFACES & USE SITES table } where bacterial growth can cause malodors.
- (Effective)(powerful)(quick)(superior) cleaning strength
- Can be used with a (low pressure coarse) trigger sprayer

CLAIM QUALIFIERS

BACTERICIDAL ACTIVITY:

This product is an effective bactericide against *Staphylococcus aureus* (ATCC 6538), *Pseudomonas aeruginosa* (ATCC 15442), (and) *Salmonella enterica* (ATCC 10708),_{and insert bacteria from Microorganism Table} on hard, non-porous, non-food contact surfaces in 2 (3) (5) minutes.

<<OR>>

Bactericidal in 2 (3) (5) minutes against: {insert bacteria from Microorganism Table}

***VIRUCIDAL ACTIVITY:**

*Virucidal in 2 (3) (5) minutes against: {insert viruses from Microorganism Table}

<<AND/OR>>

*Virucidal in 1 minute against: {insert virus with 1 minute contact time from Microorganism Table}

<<AND/OR>>

*Virucidal in 15 seconds against: {insert virus with 15 second contact time from Microorganism Table}

†TUBERCULOCIDAL ACTIVITY:

Tuberculocidal in (5) (10) minutes against *Mycobacterium bovis* (BCG) (*Mycobacterium tuberculosis*) at 20 degrees Centigrade (20°C) when the treated surface is allowed to remain visibly wet for specified time.

<<OR>>

Tuberculocidal against *Mycobacterium bovis* (BCG) (*Mycobacterium tuberculosis*) when the treated surface is allowed to remain visibly wet for (5) (10) minutes.

FUNGICIDAL (MILDEWCIDAL):

This product is an effective fungicide against *Trichophyton interdigitale* and *Candida albicans* in (2)(3)(5) minutes on hard, non-porous, non-food contact surfaces.

¹ Rinse all equipment that comes in prolonged contact with skin before reuse with clean warm water (about 120°F), and allow to air dry. (Caution: Cleaning at the 120°F temperature will avoid overheating and distortion of the personal safety equipment that would necessitate replacement.)

^β Non-food contact surfaces only

² When used according to disinfection directions

³ SARS-Related Coronavirus 2

⁴ Allow surface to come to room temperature prior to treatment

⁵ *Staphylococcus aureus*, *salmonella enterica*, *Escherichia coli*

SURFACES & USE SITES

Not for use as a disinfectant or sanitizer on food contact surfaces.

Appropriate metric or imperial unit conversion may be added as optional supplemental information.

MICROORGANISMS

This product has been tested and found to be efficacious against the following microorganisms on hard, non-porous surfaces:

DISINFECTION		
Bacteria		Contact Time
<i>Enterobacter aerogenes</i>	(ATCC 13048)	2 (3)(5) minutes
<i>Staphylococcus aureus</i>	(ATCC 6538)	2 (3)(5) minutes
<i>Pseudomonas aeruginosa</i>	(ATCC 15442)	2 (3)(5) minutes
<i>Salmonella enterica</i>	(ATCC 10708)	2 (3)(5) minutes
<i>Escherichia coli</i>	(ATCC 11229)	2 (3)(5) minutes
<i>Klebsiella pneumoniae</i> New Delhi metallo-beta-lactamase (NDM-1)	(ATCC BAA-2146)	2 (3)(5) minutes
<i>Streptococcus pyogenes</i>	(Strain MGAS9894, NR-15275)	2 (3)(5) minutes
Methicillin-resistant <i>Staphylococcus aureus</i> (MRSA)	(ATCC 33593)	2 (3)(5) minutes
Vancomycin Resistant <i>Enterococcus faecium</i> (VRE)	(ATCC 51575)	2 (3)(5) minutes
<i>Mycobacterium bovis</i> (BCG)	<i>Mycobacterium bovis</i> (BCG)	5 minutes
Viruses		Contact Time
<i>Virus Enveloped:</i>		
Human Immunodeficiency Virus Type 1, (associated with AIDS)	Strain IIIB (B)	1 (2) (3)(5) minutes
Human Hepatitis B Virus	Strain Grimaud	2 (3)(5) minutes
Duck Hepatitis B Virus (DHBV)		
Human Hepatitis C Virus	Strain NADL	2 (3)(5) minutes
Bovine Viral Diarrhea Virus (BVDV)		
Influenza Virus Type H3N2	A/Hong Kong/8/	1 (2) (3)(5) minutes
SARS-Related Coronavirus 2 (SARS-CoV-2)	USA-WA1/2020 BEI NR-52281	15 seconds
<i>Virus Small Non-enveloped</i>		
Human Norovirus	(ATCC VR-782)	2 (3)(5) minutes
Feline calicivirus (caliciviridae)		
Rhinovirus Type 39 (Picornaviridae)	(ATCC VR-340)	2 (3)(5) minutes
Fungi / Mildew		Contact Time
<i>Trichophyton interdigitale</i> (formerly <i>Trichophyton mentagrophytes</i>)	(ATCC 9533)	(2) (3)(5) minutes
<i>Candida albicans</i>	(ATCC 10231)	(2)(3)(5) minutes

Emerging Viral Pathogen Claims

Product Name -or- this product qualifies for emerging viral pathogen claims per the EPA's 'Guidance to Registrants: Process for Making Claims Against Emerging Viral Pathogens not on EPA-Registered Disinfectant Labels' when used in accordance with the appropriate use directions indicated below:

Product Name -or- this product meets the criteria to make claims against certain emerging viral pathogens from the following viral categories:

- Enveloped viruses
- Large non-enveloped viruses
- Small non-enveloped viruses

For an emerging viral pathogen that is a/an...	...follow the directions for use for the following organisms on the label:
Enveloped virus	Rhinovirus Type 39 Feline calicivirus
Large non-enveloped virus	Rhinovirus Type 39 Feline calicivirus
Small non-enveloped virus	Rhinovirus Type 39 Feline calicivirus

Product Name -or- this product has demonstrated effectiveness against viruses similar to **[name of emerging virus]** on **[hard, non-porous surfaces]**. Therefore, *Product Name* -or- this product can be used against **[name of emerging virus]** when used in accordance with the directions for use against **[name of supporting virus(es)]** on **[hard, non-porous surfaces]**. Refer to the **[CDC or OIE]** website at **[pathogen-specific website address]** for additional information.

[Name of illness/outbreak] is caused by **[name of emerging virus]**. **[Product name]** kills similar viruses and therefore can be used against **[name of emerging virus]** when used in accordance with the directions for use against **[name of supporting virus(es)]** on **[hard, non-porous surfaces]**. Refer to the **[CDC or OIE]** website at **[website address]** for additional information.

PRECAUTIONARY STATEMENTS

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS.**

DANGER

KEEP OUT OF REACH OF CHILDREN. CORROSIVE. Causes irreversible eye damage and skin burns. Do not get in eyes, on skin or on clothing. May be fatal if inhaled. Do not breathe spray mist. Wear a NIOSH approved particulate respirator with any N, R, or P filter NIOSH approval number prefix, TC-84A. May be fatal if swallowed or absorbed through skin. Wear goggles or face shield, rubber gloves and protective clothing when handling. Wash thoroughly with soap and water after handling and before eating, drinking, using tobacco or using the toilet. Remove contaminated clothing and wash before reuse.

(for containers 5 gallons or greater)

ENVIRONMENTAL HAZARDS

This product is toxic to fish, aquatic invertebrates, oysters and shrimp. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

Bracketed information is denoted as: { insert as noted }, (optional text), [required qualifier].
The term "this product" used throughout this document may be replaced with the marketed product brand name.
The term "x" is a place holder for numerical digits.
Punctuation and plural/singular word forms may be adjusted to allow for grammatical correctness.
Appropriate metric or imperial unit conversion may be added as optional supplemental information.

Physical or Chemical Hazards
Combustible. Do not use or store near heat or open flame.

STORAGE AND DISPOSAL

DO NOT CONTAMINATE WATER, FOOD, OR FEED BY STORAGE OR DISPOSAL.

PESTICIDE STORAGE - Store in a dry place no lower in temperature than 50°F or higher than 120°F.

PESTICIDE DISPOSAL - Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER HANDLING - <i>(mandatory language - choose applicable directions)</i>	
<i>For products only with household/residential use sites</i>	Nonrefillable container. Do not reuse this container. Offer for recycling, if available.
<i>For products with industrial, institutional, and commercial use sites</i>	Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. Triple rinse container (or equivalent) promptly after emptying.
<i>For containers 5 gallons or less</i>	Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container ¼ full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times
<i>For containers greater than 5 gallons</i>	Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container ¼ full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 15 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times
<i>For reuseable container</i>	Container can be reused once the container is empty. Empty container of concentrate into dilution dispenser (specific equipment can be named to replace "dilution dispenser"). Dispenser will automatically dilute a disinfectant solution. Remove concentrate label. Refill container with use-dilution of concentrate from the dispenser. Replace cap with spray nozzle provided. Place correct use dilution label on the spray bottle.
Note to reviewer: <i>The one-way opening container language is optional language and can be used on the in-commerce label</i>	
<i>For products with industrial, institutional and commercial use sites and containers with a one-way opening for use in automatic dilution/dispensing systems, or nonrefillable sealed containers which triple rinse cannot be applied as they are closed, welded, or, sealed container.</i>	(For containers 5 gallons or less) Nonrefillable container. Do not reuse or refill this container. When container is empty, replace cap and discard in trash. Offer for recycling if available. (For containers greater than 5 gallons) Nonrefillable container. Do not reuse or refill this container. When container is empty, replace cap and discard in trash. Offer for recycling

(when applicable)

Bracketed information is denoted as: { insert as noted }, (optional text), [required qualifier].
The term "this product" used throughout this document may be replaced with the marketed product brand name.
The term "x" is a place holder for numerical digits.
Punctuation and plural/singular word forms may be adjusted to allow for grammatical correctness.
Appropriate metric or imperial unit conversion may be added as optional supplemental information.

PACKET DISPOSAL – Do not reuse; discard empty container and put in trash.

DIRECTIONS FOR USE

Note: product packaged in packet form must include Packet Directions for Use in addition to disinfection, fungicide, and cleaning, and/or site/application-specific directions for use.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

{Note to reviewer this statement must be used on labels that list food contact surfaces: Surfaces which may contact food must be rinsed thoroughly with potable water after use.}

(Note to Reviewer: For labels that list medical devices and/or stainless steel surfaces, one of the following FDA/EPA Memorandum of Understanding statements must be used.)

²This product is not to be used as a terminal sterilant/high-level disinfectant on any surface or instrument that (1) is introduced directly into the human body either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. (This product can be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high-level disinfection).

(Or)

This product is not for use on (critical) (and) (semi-critical) medical device surfaces.

DEODORIZATION: To deodorize, apply this product as indicated under the heading DISINFECTION (or)

To deodorize, apply this product as indicated under the heading DISINFECTION. For heavy duty deodorization dilute this product at 4 to 8 ounces per gallon (or equivalent dilution) and apply as directed.

Direction for Use for Cleaning: Apply this product to soiled area with a {(mechanical spray device)(hand pump)(low pressure coarse)} trigger sprayer. This product can be diluted at 4 to 8 ounce per gallon (or applied at full strength). Visibly wet soiled surface and scrub as necessary.

TO (CLEAN)(REMOVE) MOLD STAINS and MILDEW STAINS: This product can be used at full strength or at a use dilutions from 4 to 8 ounces per gallon of water (or equivalent dilution). Apply full strength or other diluted solution to surface to be cleaned with a {(mechanical spray device)(hand pump)(low pressure coarse)} trigger sprayer. Visibly wet soiled surface completely and scrub as necessary.

DISINFECTION: To disinfect hard non-porous, non-food contact surfaces add 4 ounces of this product per gallon of water (or equivalent dilution). Apply solution to wet surfaces visibly with a {(mechanical spray device)(hand pump)(low pressure coarse)} trigger sprayer. Spray 6-8 inches from surface and allow to remain visibly wet for 2 (3) (5) minutes (or 15 seconds for SARS-CoV-2). Surface can then be rubbed with brush, sponge or cloth. Do not breathe spray mist. For visibly soiled areas, a pre-cleaning step is required.

BACTERICIDAL STABILITY OF USE-SOLUTION: Tests confirm that (this product) when diluted at 4 ounce/gallon in water (via use of automatic dispensing system) remains effective against *Pseudomonas aeruginosa*, *Staphylococcus aureus* and *Salmonella enterica* for (up to 30 days) (up to 4 weeks) (up to 1 month) when stored in a sealed container such as a spray bottle at room temperature. If (the product or product name) becomes visibly dirty or contaminated, the use-solution must be discarded and fresh use-solution prepared. Always use clean, properly labeled containers when diluting (this product or product name). Bactericidal stability of the use-solution does not apply to open containers such as buckets or pails. (or)
Prepare a fresh use-solution daily or more often if the use-solution becomes visibly (dirty), (contaminated) or diluted.

KILL HIV, HBV AND HCV ON PRE-CLEANED HARD, NON-POROUS SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS in health care settings or other settings in which there is an expected likelihood of soiling of hard, non-porous surfaces/objects with blood or body fluids and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 (HIV-1)(associated with AIDS), Hepatitis B Virus (HBV) and Hepatitis C Virus (HCV)

(Required if making an HIV or HBV or HCV claim on the product label)

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1, HCV and HBV OF SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS.

PERSONAL PROTECTION: When handling items soiled with blood or body fluids, use disposable latex gloves, gowns, masks, and eye coverings.

CLEANING PROCEDURES: Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of this product.

CONTACT TIME: HIV-1 is inactivated after a (1) (2)(3)(5) minute contact time. HBV is inactivated after a (2)(3)(5) minute contact time. HCV is inactivated after (2)(3)(5) minute contact time. Use a (X) minute contact time for other organisms as stated on the label.

DISPOSAL OF INFECTIOUS MATERIALS: Blood and other body fluids must be autoclaved and disposed of according to local regulations for infectious waste disposal.

FUNGICIDE:

(Fungicide) (Fungicidal Activity): To kill fungi (fungus) add 4 ounces of this product per gallon of water (or equivalent dilution). Apply solution visibly wetting surface with a {(mechanical spray device)(hand pump)(low pressure coarse)} trigger sprayer. Spray 6-8 inches from surface and allow to remain visibly wet for 2 (3) (5) minutes. Surface can then be rubbed with brush, sponge or cloth. Do not breathe spray mist. For visibly soiled areas, a pre-cleaning step is required. This product at use dilution should be applied daily or more frequently with heavy facility use.

The following language is required to appear on inserts, hangtags and reference sheets:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Labeling must be in the possession of the user at the time of using the product. See container label for FIRST AID and PRECAUTIONARY STATEMENTS and complete DIRECTIONS for USE before applying. Use of this product is subject to the precautions and limitations imposed by the label affixed to the container for this product.

The following language is required to appear on the container label:

See (insert) (hangtag) (reference sheet) for (complete) (additional) information.

SITE AND APPLICATION SPECIFIC DIRECTIONS FOR USE

Light Duty Cleaning (Directions): Apply this product to soiled area with a {(mechanical spray device)(hand pump)(low pressure coarse)} trigger sprayer. This product can be diluted at 4 ounce per gallon or other dilutions up to 6 ounces per gallon. Visibly wet soiled surface and scrub as necessary.

Restaurant Premises (and) (Food Service Establishment) Disinfection [Non-food contact surfaces]: Before using this product, food products and packaging materials must be removed from the area or carefully protected. Prepare (this product) use-solution by adding 4 ounce per gallon of water (or equivalent dilution). Apply use solution of this product using a {(mechanical spray device)(hand pump)(low pressure coarse)} trigger sprayer visibly wetting surfaces. All treated surfaces exposed to the use-solution must remain visibly wet for (2)(3)(5) minutes (or 15 seconds for SARS-CoV-2) then remove excess liquid and rinse food contact surfaces with potable water. This product cannot be used to clean the following food contact surfaces: utensils, glassware and dishes. Surface can then be rubbed with brush, sponge or cloth. For visibly soiled areas, a pre-cleaning step is required.

One-step Cleaning and Disinfection of Toilet Bowls and Urinals above the waterline only(Directions): Prepare (this product) use-solution by adding 4 ounce per gallon of water (or equivalent dilution). Apply use solution of this product using a {(mechanical spray device)(hand pump)(low pressure coarse)} trigger sprayer visibly wetting surfaces (including under the toilet bowl rim). All treated surfaces exposed to the use-solution must remain visibly wet for (2)(3)(5) minutes and then flush. Surface can then be rubbed with bowl brush, sponge, or swab. Prior to disinfection, remove visible filth or soils from surfaces with bowl brush.

For heavy duty use: Apply 8 ounce per gallon use-solution of this product to exposed surfaces and visibly wetting (toilet bowl) (urinal) interior surfaces using {(mechanical spray device)(hand pump)(low pressure coarse)} trigger sprayer. All treated surfaces exposed to the use-solution must remain visibly wet for (2)(3)(5) minutes and then flush. Surface can then be rubbed with bowl brush, sponge, or swab. ,

TO CLEAN /DISINFECT (WATERFREE)(WATERLESS)(DRY/VACUUM) URINALS: Preliminary cleaning is required for visibly soiled surfaces. Remove and properly dispose of cartridge according to manufacturer's directions. Prepare (this product) use-solution by adding 4 ounce per gallon of water (or equivalent dilution). Clean or disinfect the entire urinal by spraying use-solution directly onto surface. And let solution stand for (2)(3)(5) minutes. Wipe surface to clean. Change cartridge as needed. The unit is ready for use.

<Note to reviewer: *The following Cleaning and Site Preparation statement will be used on all labels with use instructions for Farm premises, Agricultural Premises Equipment/Animal housing facilities* Prior to use of this product, remove all animals (poultry) and feeds from [(premises) (areas to be treated)], animal transportation vehicles (trucks, cars), and enclosures [(such as)(coops)(, crates)(, kennels)(, stables)]. Remove all litter, droppings and manure from sealed floors, walls and surfaces of barns, pens, stalls, chutes and other surfaces of facilities and fixtures occupied or traversed by animals. Empty all troughs, racks and other feeding and watering appliances. Thoroughly clean surfaces with soap or detergent and rinse with water. Clean all vehicles including mats, crates, cabs, and wheels with high pressure water.

Veterinary Practice/Animal Care/Animal Laboratory/Zoos/Pet Shop/Kennels Disinfection (Directions): Remove all animals and feed from premises, animal transportation vehicles, crates, etc. Remove all litter, droppings and manure from sealed floors, walls and surfaces occupied or traversed by animals. Prepare (this product) use-solution by adding 4 ounce per gallon of water (or equivalent dilution). Apply use solution of this product using a {(mechanical spray device)(hand pump)(low pressure coarse)} trigger sprayer visibly

wetting surfaces. All treated surfaces exposed to the use-solution must remain visibly wet for (2)(3)(5) minutes (or 15 seconds for SARS-CoV-2). Surface can then be rubbed with brush, sponge or cloth. For visibly soiled areas, a pre-cleaning step is required. Ventilate buildings and other closed spaces. Do not house animals or employ equipment until treatment has been absorbed, set or dried.

Farm Premise (Poultry) (Hatcheries) (Swine) (Beef) (Cattle) (Dressing Plant) (Vehicles) Cleaning and Site Preparation (Directions):

Remove all litter, droppings, and manure from sealed floors, walls and surfaces of stalls, barns, pens, and other surfaces from area to be treated. Once debris is eliminated, thoroughly clean surfaces with soap and water or detergent and rinse with water. Prior to use of this product, remove all animals and feeds from area to be treated. Clean all vehicles including mats, crates, cabs, and wheels with high pressure water.

(Beef)(Cattle) (Poultry) (Hatcheries) (Swine) (Dressing Plant) Premise Disinfection (Directions):

Prepare (this product) use-solution by adding 4 ounce per gallon of water (or equivalent dilution). Apply use solution of this product using a {(mechanical spray device)(hand pump)(low pressure coarse)} trigger sprayer visibly wetting surfaces. All treated surfaces exposed to the use-solution must remain visibly wet for (2)(3)(5) minutes. Surface can then be rubbed with brush, sponge or cloth. For visibly soiled areas, a pre-cleaning step is required. Do not house (animals) (livestock) or employ equipment until treatment has been absorbed, set or dried. Thoroughly scrub all treated feed racks, mangers, troughs, automatic feeders, fountains and waterers with soap or detergent and rinse with potable water before reuse. Do not use in milking stalls, milking parlors or milk houses.

Vehicles Disinfection (Directions): Prepare (this product) use-solution by adding 4 ounce per gallon of water (or equivalent dilution). Apply use solution of this product using a {(mechanical spray device)(hand pump)(low pressure coarse)} trigger sprayer visibly wetting surfaces. All treated surfaces exposed to the use-solution must remain visibly wet for (2)(3)(5) minutes (or 15 seconds for SARS-CoV-2). Surface can then be rubbed with brush, sponge or cloth. For visibly soiled areas, a pre-cleaning step is required. Vehicle must air dry prior to entering or re-entering the roadway.

Disinfection of Hard Non-Porous Surfaces in Whirlpool Unit(s) (Directions): After using the whirlpool unit drain the tub. Prepare (this product) use-solution by adding 4 ounce per gallon of water (or equivalent dilution). Apply use solution of this product using a {(mechanical spray device)(hand pump)(low pressure coarse)} trigger sprayer to visibly wetting surfaces. All treated surfaces exposed to the use-solution must remain visibly wet for (2)(3)(5) minutes. Surface can then be rubbed with brush, sponge or cloth. For visibly soiled areas, a pre-cleaning step is required. (After the unit has been disinfected rinse cleaned surfaces with fresh water.)

Cleaning and Disinfecting Hard, non-porous surfaces on personal protective equipment (respirators): pre-clean equipment, if visibly soiled to ensure proper surface contact. Prepare a use solution by adding 4 oz of this product per gal. of water (or equivalent use dilution). Gently mix for uniform use solution. Apply the solution to surfaces of the respirator by {(mechanical spray device)(hand pump)(low pressure coarse)} trigger sprayer. Spray 6-8 inches from surface. Do not breathe spray. All treated surfaces must remain visibly wet for (2)(3)(5) minutes (or 15 seconds for SARS-CoV-2). Surface can then be (wiped (off)(dry)(with a clean (cloth)(mop)(paper towel)(or sponge)(or)(allow to air dry)). Remove excess solution from equipment prior to storage. The user must comply with all OSHA regulations for cleaning respiratory protection equipment (29 CFR §1910.134). Prepare a fresh solution daily or when visibly dirty.

Commercial Florist Use (Directions): To clean, disinfect and deodorize hard non-porous surfaces in one step, remove all leaves, petals, garbage and refuse. Pre-clean surfaces using pressurized water where

possible. Prepare (this product) use-solution by adding 4 ounce per gallon of water (or equivalent dilution). Apply use solution of this product using a {(mechanical spray device)(hand pump)(low pressure coarse)} trigger sprayer to visibly wetting surfaces. All treated surfaces exposed to the use-solution must remain visibly wet for (2)(3)(5) minutes. Surface can then be rubbed with brush, sponge or cloth. For visibly soiled areas, a pre-cleaning step is required.

To Control Mold and Mildew on Large, Inflatable, Non-Porous Plastic and Rubber Structures (Directions): Thoroughly clean all surfaces with soap or detergent and rinse with water. Prepare this product use-solution by adding 4 ounce per gallon of water (or equivalent dilution). Apply use solution of this product using a {(mechanical spray device)(hand pump)(low pressure coarse)} trigger sprayer visibly wetting surfaces. All treated surfaces exposed to the use-solution must remain visibly wet for (2)(3)(5) minutes. Surface can then be rubbed with brush, sponge or cloth followed by rinsing treated surfaces with water. For visibly soiled areas, a pre-cleaning step is required.

To control the growth of mold and mildew on non-porous athletic equipment: for use on wrestling and gymnastic mats, athletic mats, exercise equipment, athletic training tables, physical therapy tables, athletic helmets, wrestling/boxing headgear, athletic shoe soles, and other hard, non-porous surfaces. Thoroughly clean surfaces with soap or detergent and rinse with water, prepare a use solution of 4 oz of this product per gal of water (or equivalent use dilution). Apply by {(mechanical spray device)(hand pump)(low pressure coarse)} trigger sprayer. Spray 6-8 inches from surface. Do not breathe spray. All treated surfaces exposed to the use-solution must remain visibly wet for (2)(3)(5) minutes. Ventilate buildings and other closed spaces. Do not use equipment until treatment has been set or dried.

(Not for Use in California)

Water and Smoke Damage Restoration Against Odor-Causing Bacteria and Fungi for Institutional and Industrial (Directions):

Carpets, carpet cushions and other porous materials such as sub floors, drywall, trim and frame lumber, tackless strip and paneling (Directions): For water damage from a clean water source, remove visible filth or soil and extract excess water. Test hidden area for colorfastness. Mix 4 to 6 ounces of this product per gallon of water, allowing for the diluting effect of absorbed water within saturated materials. Apply directly with a {(mechanical spray device)(hand pump)(low pressure coarse)} trigger sprayer to fully saturate affected materials. Roll, brush or agitate into materials and allow the materials to remain damp for 10 minutes. Follow with a thorough extraction. Dry rapidly and thoroughly.

(Not for Use in California)

Sewer backup & river flooding: During mitigation procedures, remove visible filth or soil along with non-salvageable materials. Dilute 4 to 6 ounces of this product per gallon of water allowing for the diluting effect of absorbed water within saturated materials. Saturate all affected areas with a {(mechanical spray device)(hand pump)(low pressure coarse)} trigger sprayer, before and after cleaning and extraction.

DILUTION SYSTEM SPECIFIC DIRECTIONS FOR USE

(Automatic Dilution)(Dilution System Name) ((Closed)(Open) Loop): (Concentrated product – dilute before using)

ATTACH this product TO THE AUTOMATIC DILUTION CENTER: Remove cap from product bottle and attach the automatic dilution center. This dispensing system delivers 4 oz. per gallon of water (1:32) use solution.

(OR)

<<System Descriptors:>>

The [Insert Dispensing System Brand Name] (Portable) (Dispensing) (Unit) (Device) (System)

<<Optional Text:>>

(Simple.) (Smart.) (Clever.) (Designed to Dilute.) (Ready-to-Dilute.) (Accurate.) (Reduce product overuse (waste).) (Effective.) (No chemical contact (with concentrate).) (Easy operation.) (Minimal training.) (Durable (during) (use)(transport).) (Effective.) (Sealed bottle.) (Dilution control.) (Portable (concentrate) (dilution).) (Plug and Go.) (Connect and Go.)

{{insert appropriate number}} (gpm) (gallons per minute) (flow) (fill) (rate).

(Dilution ratio based on product used.)

(This dispensing system delivers (1:32) use solution) (4 oz. (this product) per gallon of water or equivalent dilution)

(!TURN OFF water supply after use and disconnect.)

<<Optional Text:>>

TO FILL {{(MECHANICAL SPRAY DEVICE)(HAND PUMP)(LOW PRESSURE COARSE)} TRIGGER SPRAYERS (BUCKETS):]

1. Attach (system descriptor) (unit) to water source (using (water) (hose) (and) (or) (quick-connect) (provided))). (Turn on water supply (to pressurize unit).)
2. Pull back (small) (green)({other color}) locking tab from {{(off) (representative "off" icon)}} notch (with thumb).
3. While holding back tab, use opposite hand to slide (yellow) {{(other color)}} selector bar to {{(spray bottle) (bucket) (representative spray bottle icon) (representative bucket icon)}} (position) to dispense product. (The {{(faucet)(representative faucet icon)}} (position) dispenses water only (for rinsing)).
4. {Note to reviewer: One or both of the following statements will be used}
(For spray bottle(s) (applications):) Insert spray bottle under (dispenser) nozzle.
<<and/or>>
(For bucket(s) (applications):) {{(Hold) (Hang)}} (dispenser) nozzle (over bucket) (on bucket rim).
5. Push down (red) {{(other color)}} trigger (to fill spray bottle) (to fill bucket) (for product flow) (into a bottle) (into other container). (Release (red) {{(other color)}} (trigger) to stop.)
6. (See (online) (service) (instruction) manual (insert) for (more) (detailed) (usage) information.)

TO TRANSPORT[:]

1. (Pull back (small) (green) {{(other color)}} locking tab and) slide (yellow) {{(other color)}} selector bar to {{(faucet) (representative faucet icon)}} (position). (Unit now dispenses water only (and can be used for rinsing) (by pushing down (red) (other color) trigger).)
2. Turn off water (at the source).
3. (While still in the {{(faucet) (representative faucet icon)}} (position),) push down (red) {{(other color)}} trigger to release water pressure. (A small amount of water will be discharged.) (Pressure will be released from the unit.)
4. (Once pressure is released (from the unit),) (pull back (small) (green) {{(other color)}} locking tab and) slide (yellow) {{(other color)}} selector bar to {{(off) (representative "off" icon)}} (position). (Disconnect water hose from unit.) ((Unit) (System Descriptor) is now ready for transport.)

(OR)

Automated Dilution System (Dilution System Name): Remove cap/spray nozzle from empty container. Fill empty container with a newly prepared use-solution. Replace cap/spray nozzle. Place correct use-dilution label on newly filled container.

(OR)

(Insert Dispensing System Brand Name)(Dispensing System):

1. Fill (Insert Brand Name) pouch with cold water to the fill line arrow below the cap.
2. Fold and Squeeze the chemical concentrate to burst inner pouch.
3. Shake the bag to mix chemical fully.
4. Use the push button to fill the bottle.

Once water and concentrate are mixed, 1 gallon (3.8 Liters) of ready to use (disinfecting/cleaning) (disinfecting) solution.

(OR)

Integrated Dispensing System (Name of Integrated Dispensing System) (Control Knob Key) -

Attach to source of potable water with quick connect attachment.

Rotate control knob to (1:32)() for low flow rate applications such as filling trigger spray bottle.

1: 32

Rotate control knob to() for high flow rate applications as filling a mop bucket.

1: 32

Squeeze handle to dispense a 4 oz. per gallon of water (1:32) use solution of product.

(OR)

PACKETS - *Pre-measured tear open packets* – (Simply) (tear) (open and) pour contents (of packet) into x gallons of water (for a 1: 32 dilution). Keep packets in box until ready to use. (Pour contents of packet into x gallons of water for a 1:32 dilution.)

or

Pour contents of (x oz) packet into (x) gallons of water. Keep packets in box until ready to use.

(OR)

INTERMEDIATE SERVICE SOLUTION CONTAINER:

1. Create Intermediate Service Solution by combining (x oz product) (x packet(s)) and x (oz) (gal) water for a (x:x) intermediate dilution.
2. Combine x (oz) of the Intermediate Service Solution and x (oz)(gal) water to achieve the final use dilution of 1:32.
3. Follow Directions for Use for (Disinfection), (Insert applicable use header).

SECONDARY / SERVICE CONTAINER LABELING

(Note to Reviewer: The following is to be used as a label for a separate, secondary container for use/storage of a 1:32 use solution (or equivalent dilution). Not for use with alternate dilutions)

When this product is diluted in accordance with the directions on this label, the dilution container must bear the following statements:

Stepan Spray Disinfectant Concentrate /Product Brand Name

ACTIVE INGREDIENTS

Didecyl dimethyl ammonium chloride 16.84%

(OTHER)(INERT) INGREDIENTS 83.16%

Total.....100.00%

The product in this container is diluted as directed on the pesticide product label. Follow the directions for use on the pesticide label when applying this product. Further sale or distribution of this product is strictly prohibited.

(Disposal – Do not reuse; discard empty packet by putting in trash)

KEEP OUT OF REACH OF CHILDREN

DANGER

FIRST AID	
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.	
If in eyes:	- Hold eye open and rinse slowly and gently with water for 15-20 minutes. - Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. - Call a poison control center or doctor for treatment advice.
If on skin or clothing:	- Take off contaminated clothing. - Rinse skin immediately with plenty of water for 15-20 minutes. - Call a poison control center or doctor for treatment advice.
If swallowed:	- Call a poison control center or doctor immediately for treatment advice. - Have person sip a glass of water if able to swallow. - Do not induce vomiting unless told to do so by a poison control center or doctor. - Do not give anything by mouth to an unconscious person.
If inhaled:	- Move person to fresh air. - If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. - Call a poison control center or doctor for treatment advice.

Bracketed information is denoted as: { insert as noted }, (optional text), [required qualifier].
The term "this product" used throughout this document may be replaced with the marketed product brand name.
The term "x" is a place holder for numerical digits.
Punctuation and plural/singular word forms may be adjusted to allow for grammatical correctness.
Appropriate metric or imperial unit conversion may be added as optional supplemental information.

CORROSIVE. Causes irreversible skin and eye damage. Do not get in eyes or on clothing. Harmful if swallowed or absorbed through skin or inhaled. Avoid breathing (spray mist). Wear rubber gloves. Wear (specify appropriate protective eyewear such as goggles, face shield, or safety glasses). Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.
