ACCEPTEES  
FEDERAL BUREAU OF INVESTIGATION  
FOR THE UNITED STATES DEPARTMENT OF JUSTICE  
Case Number 1842-1981

Net Contents:

1 QUART

### GREEN-SHEEN

For Roses, Perennials, and all other plants  
dilute 1 part to 240 parts of water (1 teaspoon  
of oil to 1 pint or 2 tablespoons per gallon) for hand  
spraying, or 1 part GREEN-SHEEN to 2 parts  
of water in "House-It" applicator set at 2 quarts to  
30 gallons of water.

House Plants add 2 teaspoons to 1 pint water  
diluted 1 part to 300 parts to clean and produce glossy  
leaves.

### CAUTION

DO NOT SPRAY ON FLOWERS.

DO NOT SPRAY GREEN-SHEEN when temperature is  
below 40° F. or above 40° F. or when plants are  
overexposed to direct sun or lack of moisture. Do not use  
on plants which have been treated before or after using sulphur.

### WARRANTY

The manufacturer warrants this product to be chemically  
sound and suitable for its intended purpose, based on  
the results of laboratory tests and field observations under  
normal conditions of use. The manufacturer will not be liable  
for any damage resulting from the use of this product, except  
as provided in the following statement. This warranty  
applies only to the original consumer and is not transferable.  
The manufacturer reserves the right to disclaim liability  
for any damage resulting from the use of this product.
