Active Ingredients:	SULPHUR	93%
Inert Ingredients:		7%
		<hr/>
		100%

Fineness: Not less than 93% passing 325 Mesh

KEEP OUT OF REACH OF CHILDREN

DIRECTIONS FOR USE

Triangle Dusting Sulphur is formulated for use in dust mixtures or as a dust when a free-flowing dust is required.

IMPORTANT: For best results, apply when air is calm. Dust freely enough to give that part of foliage covered with a light, uniform coating.

CAUTION: Do not use sulphur within two weeks of an oil spray. Do not use sulphur on apple when temperature is high. Do not use sulphur on cucurbits (cucumber, cantaloupe, melon, squash) or tung. To do so may result in severe injury to foliage and fruit.

Keep Out of Reach of Children

Contact your local agricultural authorities as to local recommendations and timing of application.
