EPA Reg. No.
1871-80

SUGGESTIONS FOR USE IN THE PACIFIC NORTHWEST: For combination plant disease and insect control as listed below apply uniformly through ground or aircraft duster before disease infection occurs, or when insects first appear. Repeat as necessary (within time limitations) to maintain control.

This product is toxic to bees and should not be applied when bees are actively visiting the area.

This product is toxic to fish, birds and other wildlife. Birds feeding on treated areas may be killed. Keep out of lakes, streams or ponds. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

STRAWBERRIES, to control Botrytis rots, Omnivorous leaf tier (Strawberry fruitworms), Cyclamen mites and Spittlebugs, apply 40 to 50 pounds per acre. Do not apply within 4 days of harvest. Do not reapply within 35 days when fruit is present.

Active Ingredients:

CAPTAN (N-trichloromethylthio-4-cyclohexene-1,2-dicarboximide) 7.5 %
ENDOSULFAN (Hexachlorohexahydromethano-2,4,3-benzodioxathiepin,3-oxide) 3.0 %

Inert Ingredients: 89.5 %

CAUTION

KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed, inhaled or absorbed through the skin. Avoid breathing dust or contact with skin, eyes or clothing. In case of contact, immediately remove contaminated clothing and wash with soap and water. Flush eyes repeatedly with water and get medical attention. Wash thoroughly with soap and water after exposure, especially before smoking or eating. Launder all protective clothing before re-use. Avoid contamination of feed or foodstuffs. Do not allow this product to contaminate and adjacent crop, or areas occupied by unprotected humans or useful animals.

Do not reuse empty container. Destroy it by burying with waste or burning. Stay away from smoke or fumes.
