Moth Kill

Para
DICHLOOROBENZENE
Crystals

Odor will not cling to clothes
Overcomes many unpleasant odors

DIRECTIONS for storing woolen clothing and furs: Brush articles thoroughly and remove all stains before storing. Sprinkle a quantity of **Para** Crystals at bottom of container used for storing. Spread **Para** Crystals between layers of articles and place a liberal quantity on top. Keep containers closed as tightly as possible for at least seven days. Repeat treatment before crystals are entirely evaporated. Use one ounce of **Para** Dichlorobenzene Crystals to every three cubic feet of confined space in tight containers, such as storage closets, storage trunks, etc. If storage containers are opened add sufficient **Para** Dichlorobenzene Crystals to replace used portion and keep closed for at least seven days after treatment.

CAUTION: **Para** Dichlorobenzene Crystals should not be mixed or placed in contact with other moth preventive chemicals. Do not place on polished, painted or plastic surfaces.

Net weight One Pound
