Thoroughly brush and clean all articles to be stored. Place them in airtight trunk, garment bag, chest, storage closet or drawers. Cover with Moth Balls or Flakes.

Spread liberally, using one pound for each 50 cubic feet of confined storage space. A normal size storage closet (5' x 7' x 9') requires 2 pounds; a large trunk at least 1/2 pound.

Storage receptacles should be kept tightly closed at all times and for at least seven days after treatment.

If containers are opened, add sufficient moth balls or moths flakes, using one pound to every 50 cubic feet of tightly confined storage space and keep closed for at least seven days after treatment.

When unpacked, articles should be thoroughly brushed and hung in the sunlight and air to eliminate odor.

Naphthalene should not be
