SHAKE WELL BEFORE USING

TO CONTROL FLEAS AND TICKS ON DOGS FOR 14 DAYS:

Start spraying at the tail, moving the dispenser rapidly and making sure that the animal's entire body is treated, including the legs and underbody. Fluff the hair while spraying so that the spray will penetrate to the skin and thoroughly wet it. Do not spray into eyes or face. Avoid contact with genitalia.

TO CONTROL FLEAS AND TICKS AND OTHER COMMON INSECTS ON PREMISES:

Apply as a direct spray to control accessible stages of fleas and tick. Spray to lightly dampen rugs, carpets and other absorbent surfaces or to the point of runoff on tile, wood floors or other nonabsorbent surfaces. Thoroughly spray infested areas, pet beds and resting quarters, cracks and crevices, along baseboards, moldings and window and door frames as well as localized areas of floor and floor covering. Repeat as necessary.

STORAGE: Store in original container in a cool, dry place inaccessible to children and pets.

DISPOSAL: Do not reuse container. Wrap container in several layers of newspaper and discard in trash.
