U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Registration Division, E750501
121 "M" St., S.W.
Washington, D.C. 20460

EPA Reg. No.:
1903-28

Date of Issuance:
JAN 27 1999

NOTICE OF PESTICIDE:
 x Registration
 Reregistration

Term of Issuance:
Conditional

Name of Pesticide Product:
8 IN 1 Ear Mite Remedy

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

8 IN 1 Ear Mite Remedy
5145 Forest Run Trace - Suite B
Alpharetta GA 30022-4504

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.

2. Make the following label changes:

a. Revise the EPA Registration Number to read, "EPA Reg. No. 1903-28".

b. Revise the Precautionary Statement to read:

Harmful if swallowed. Harmful if inhaled. Avoid breathing vapors. Causes moderate eye irritation. Avoid contact.....with this product.

Signature of Approving Official:

See page 2

Date:

27 January 1999

page 2
EPA Reg. No.1903-28

c. Remove all reference's to Ferrets from your labeling.

Submit two copies of the revised final printed label for the record.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely,

Marion J. Johnson, Jr.
Product Manager 10
Insecticide Branch

(800) 342-3449

EPA Est# 1903-NY-1

EPA Reg# 1903-~~EI~~

Net Contents ___ fl. oz.

Ear mites usually induce the formation of a dry, dark brown, waxy exudate with crusts in the ears of pets. Ear mites may be detected by placing some of the ear exudate on a dark surface and carefully watching for the movement of tiny white specks away from the exudate. Inflamed, watery or blocked ear canals indicate a more serious condition which requires the services of a veterinarian.

**ACCEPTED
with COMMENTS
In EPA Letter Dated:
JAN 27 1999**

Under the Federal Insecticide,
Fungicide, and Rodenticide Act,
I am authorized, for the pesticide
registered under EPA Reg. No.
1903-25

DIRECTIONS FOR USE

It is violation of Federal law to use this product in a manner inconsistent with its labeling.

**READ ENTIRE LABEL BEFORE EACH USE.
USE ONLY ON DOGS, PUPPIES, CATS, KITTENS, FERRETS and RABBITS**

To Kill Ear Mites: Clean ears to remove build up of wax and dirt. While firmly holding pet, and avoiding contact with pet's eyes, carefully fill the ear canal with approximately 1-10 drops depending on size of the pet. Massage base of ear for a few minutes to permit penetration of the ear wax by the solution. Allow pet to shake it's head to remove as much solution as possible. Wipe excess from the ear with cotton. Repeat treatment every other day until condition has cleared up or as directed by your veterinarian. If no improvement is seen, consult a veterinarian.

This solution applied twice monthly will reduce the possibility of ear mite infestation and the accumulation of ear wax.

STORAGE AND DISPOSAL

Storage: Store in a cool, dry area, away from heat or open flame.

Disposal: Do not reuse container. Wrap and put in trash.

PRECAUTIONARY STATEMENT

Hazards to Humans and Domestic Animals

CAUTION

Harmful if swallowed. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling. Do not apply directly to food or contaminate food or feedstuffs with this product.

For external use only. Do not use for a prolonged period of time. Not for use on puppies, kittens, ferrets or rabbits less than 12 weeks old. If condition for which this preparation is used persists or if an irritation develops, discontinue use and consult a veterinarian.

Consult a veterinarian before using this product on debilitated, aged, pregnant, nursing or medicated animals. Sensitivities may occur after using ANY pesticide product for pets. If signs of sensitivity occur, bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.

FIRST AID

If Swallowed: Call a doctor or get medical attention. Do not induce vomiting. Do not give anything by mouth to an unconscious person. Avoid alcohol.

If on Skin: Wash with plenty of soap and water. Get medical attention if irritation persists.

If in Eyes: Flush eyes with plenty of water. Call a physician if irritation persists.

If Inhaled: Remove victim to fresh air.
