Kim Davis
Regwest Co., Agent for Goodwinol Products Corporation
30856 Rocky Road
Greeley, CO 80631-9375

Dear Ms. Davis:

Subject: Fly Repellent Gel
EPA Reg. No. 1910-3
Submission dated 9/11/2000

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to the comments listed below. One copy of the finished labeling must be submitted prior to releasing the product for shipment.

In the ingredient statement, correct the percentage of other ingredients so that the total adds to 100%.

The registrant's name and address must be preceded by "Manufactured for".

In the Precautionary Statements, delete the sentence "Wash hands after applying" and replace it with the following:

Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco. Remove and wash contaminated clothing before reuse.

Add an Environmental Hazards statement as follows:
Do not apply to water.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Storage and Disposal

{For containers greater than 1 gallon:}

Do not contaminate water, food or feed by storage or disposal.

Storage: Store in a cool, dry place (preferably locked) inaccessible to children and pets and away from heat and open flame.

Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. **Container Disposal:** Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

{For containers 1 gallon or less:}

Storage: Store in a cool, dry place (preferably locked) inaccessible to children and pets and away from heat and open flame.

Disposal: Do not reuse empty container; wrap and put in trash.

Livestock remedy. Do not apply to humans. For external use only. Use only on show, race, work or pleasure horses. Do not use on horses intended for slaughter. Fly Repellent Gel is a ready-to-use wipe-on product designed to protect horses and ponies from biting and nuisance flies, such as stable flies, horn flies, horse flies, face flies and houseflies, as well as mosquitoes and gnats.

Remove excess dirt and dust by brushing coat. Extremely dirty horses/ponies should be shampooed, rinsed and the coat allowed to dry before application. Lift nozzle cap and squeeze bottle for easy flow of product onto a gauze pad, then rub into coat. It is especially adaptable for treating difficult areas such as the face or head. Avoid application to the animal's eyes. Apply approximately 2 ounces per animal, depending upon animal size, using a sufficient amount to thoroughly treat coat. May be applied daily or at intervals necessary to give desired protection. Reapply each time animal is washed or exposed to heavy rain. Environmental conditions, such as temperature and humidity, and cleanliness of animal's coat will affect the amount of product required to do an effective job. It may be necessary to experiment with the amount applied and the treatment interval in order to achieve optimum effectiveness.

4/4

This gel will not remove or discolor hair. Fly Repellent Gel imparts a high gloss to the coat when brushed out and leaves no embarrassing "greasy" effect to collect dust and dirt prior to showing.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

WARNING: Harmful if swallowed. Causes eye irritation. Avoid getting into eyes or mucous membranes. Discontinue use if irritation develops. Avoid contamination of foodstuffs. Wash hands after applying. Consult a veterinarian before use on pregnant or nursing mares or on young horses or after first sign of any adverse reaction.

First Aid

If Swallowed:	<ul style="list-style-type: none"> • Call a poison control center or doctor immediately for treatment advice. • Have person sip a glass of water if able to swallow. • Do not induce vomiting unless told to do so by the poison control center or doctor. • Do not give anything by mouth to an unconscious person.
If in Eyes:	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice.
If on Skin or Clothing:	<ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.
<p>Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-xxx-xxxx for emergency medical treatment information.</p>	

Physical or Chemical Hazards

Combustible. Do not store or use near heat or open flame.

Lot No. on bottom of container.

{Note: The First Aid statements' grid format will be used if market label space permits; otherwise a paragraph format will be used.}
