Will not harm drain pipes, septic tanks or cesspools **Drāno** DRAIN OPENER

IMPORTANT: Read entire label before using. Keep water out of can at all times to prevent contents from erupting or boiling out. In cases of spills, sweep into dust pan, empty down nearest drain and flush with COLD water. Be sure can is empty before discarding. Never add water to can. Do not incinerate. Never use a plunger or plug the drain when using DRANO. Store in cool dry place.

HOW TO USE DRANO

Never use in garbage disposer, dishwasher or toilet bowl or pipes directly connected to such devices. Keep Drāno and solutions of Drāno off aluminum utensils, wood, painted surfaces, and floor coverings.

TO UNCLOG OR CLEAN DRAINS. Remove any standing water. Make sure water in drain is cool. If possible remove drain strainer. To open the lock cap, carefully but firmly push down on center of cap with

thumb and release. Cap will open. Keeping container away from face, tear out inner seal and throw away. Pour a heaping tablespoon of Drāno into drain pipe and close lid on can. Pour one cup of COLD water into drain. Rinse spoon immediately after using. If water boils up out of drain add another cup of COLD water. After 15 minutes, flush drain with COLD water. If drain is still clogged, repeat application. Do not repeat a third time.

FOR FLOOR DRAINS OR OTHER LARGE DRAINS, follow the same procedure, but increase Drāno amount to 3 heaping tablespoons and then pour in 3 cups of COLD water.

ONCE IN EVERY WEEK, DRANO IN EVERY DRAIN[®] to keep drains free-running. And every time it's used, Drāno sanitizes drain traps.
