

gnats as well as certain other flying pests, spray daily using 1-2 ounce per head. Cover the animal with spray with particular attention to back, flanks and legs. Since continued daily treatments create a buildup of the repellent on the animal, spraying may be reduced to once every other day after the first three or four days.

FOR HORSES - Spray lightly or sponge horses, using 1-2 ounces per adult animal, proportionately less for smaller animals. Give special attention to shanks, legs and shoulders. Apply until hair is moistened but do not wet hide.

FOR PIGS - Spray 1-2 ounces where filed congregate. Repeat as needed.

Do not apply more than 2 ounces per animal per application to cattle, horses and pigs. Apply to animals as a mist spray to the outer hair.

B-K.O.K. Dairy Cattle, Livestock and Barn Spra contains a combination of ingredients which have been selected for use on warm blooded animals, milk and meat, when used as directed, for killing and repelling horn flies, stable flies, stable flies, houseflies, gnats and mosquitoes and provides protection against these insects during and after spraying. Also kills horseflies that are hit by the spray.

B-K.O.K. Dairy Cattle, Livestock and Barn Spra is a special formulation containing a repellent which provides protection from biting flies in the pasture between milkings. This reduces the discomfort and annoyance caused by flies which often decrease milk production and weight gain.

LIVESTOCK & BARN SPRA

fine mist.

Doors and windows need not be closed during or after application.

When coarse spray is used, apply directly on walls, stanchions, ceilings, window and door frames wherever flies alight or congregate until surfaces are moistened.

Avoid direct contact with food or food utensils. Leave doors and windows open during application to permit flies to leave. After fly population is reduced, doors and windows may be closed. Spray outdoor surfaces also to discourage flies from resting and repeat as needed.

ACTIVE INGREDIENTS 100%	
Petroleum Distillate	63.215%
Mineral Seal Oil	36.000%
Di-n-propyl isocinchomeronate *	.500%
N-octyl bicycloheptene dicarboximide	.150%
Technical Piperonyl Butoxide**	.090%
Pyrethrins	.045%

*MGK Repellent 326
** Consists of .072% (butylcarbityl) (6-propylpiperonyl) ether and .018% related compounds.
