

DISINFECTANT

An excellent germicide which destroys many microbes and germ life — yet you, nor anyone else in your building, will ever know a disinfectant is being used. Leaves premises cleaned and sanitized.

DEODORANT

There is a new pleasantness and new freshness in the air when you use LILOL Lemon-scented DISINFECTANT. No "rest room odor" — just a lovely and nice scent of fresh peeled lemons.

DIRECTIONS FOR USE

FOR GENERAL DISINFECTION on floors, walls, woodwork: First, remove all filth and dirt from the premises. Use solution of 1 part disinfectant to 120 parts water. Apply so as to wet surfaces thoroughly by mopping, brushing, or wiping surface. This solution destroys Salmonella typhosa, Staphylococcus aureus and Salmonella choleraesuis.

TYPHOID SICK ROOM: All utensils such as bedpans and urinals— wash with a solution of 3 ounces disinfectant to a half gallon of water. For soaking clothing and linens used in sick room prior to laundering, use 3 ounces of disinfectant to 1 gallon of water. Mix disinfectant with water before using.

URINALS: Use 3 ounces of disinfectant to a gallon of water. Apply freely to all surfaces to be disinfected. Scrub the exposed areas.
