

[1926-69]

A POWERFUL, SCIENTIFICALLY DEVELOPED PRODUCT FOR MOSQUITO CONTROL WORK USED BY MANY OF OUR LARGEST STATES, CITIES, AND COUNTIES AS WELL AS LARGE INDUSTRIAL CONCERNS

DIRECTIONS:

For spraying damp, marshy land, stagnant pools, dilute **LM-120 LARVAECIDE** in the proportion of 1 pint to 45 gallons of water. This is a very strong solution and will kill mosquito larvae in less than five minutes.

For sewers and ditches, use 1 pint of **LM-120 LARVAECIDE** diluted in 65 gallons of water and pour generously into sewers, drains, etc.

NOTE: **LM-120 LARVAECIDE** is not effective in salt or brackish water

EPA REG. No. 1926 69

EPA EST No.

ACCEPTED
JUN 17 1975

MADE IN THE U.S.A.

WARNING:

KEEP OUT OF REACH OF CHILDREN

May be fatal if swallowed or absorbed through skin. May produce severe burns.

If swallowed, give white of egg, milk or starch paste, as an antidote. Use one table spoonful of mustard in glass of warm water as an emetic.

Do not get in eyes, on skin, or on clothing. Wash well with water if accidentally spilled on hands or after handling. Do not breathe vapor, fumes, or spray mist of the concentrated disinfectant. Keep away from children and domestic animals. Avoid contamination of food.

This product is toxic to fish and aquatic mammals. Do not use in fish-bearing waters. Keep out of lakes, streams, ponds, tidal marshes, and estuaries. Do not contaminate water by cleaning of equipment or disposal of wastes.

Apply this product only as specified on label.

Do not reuse empty container. Destroy it by perforating or crushing. Bury or discard in a safe place away from water supplies. Do not reuse empty drum. Return to drum reconditioner or destroy by perforating or crushing and burning in a safe place away from water supplies.
