

CAUTION: Harmful if swallowed or absorbed through skin. Keep out of reach of children and animals. Avoid skin contact. Wash with soap and water after using. Do not contaminate food, feed or eating utensils. Do not use inside homes or where milk and other foods are stored or processed. Repeated or careless use may cause Cholinergic case inhibition. If swallowed, induce vomiting and call a doctor. Atropine is antidotal.

USDA Reg. No. 1927-14

Bruce-Terminix PROFESSIONAL

CLOSE TIGHTLY AFTER USE DIRECTIONS

Bruce-Terminix Fly Killer is a professional preparation especially formulated for home use. It has been safely used by Bruce-Terminix, the nationwide pest control service, for fly control around homes and commercial buildings.

For Home Use—Sprinkle Fly Killer in thin strips where flies gather—around outside of kitchen doors, patios and garbage areas—but keep out of reach of children and pets. Do not contaminate food. Use about 1 oz. (2 tbsp.) daily for each 500 sq. ft. If flies are extremely numerous, more may be needed. As flies feed and die, Fly Killer becomes more attractive to other flies. Keeps killing while powder remains.

For Commercial Use—Bruce-Terminix Fly Killer is also highly effective when used around restaurants, food processing plants, hospitals, bottling plants, warehouses, grocery stores, drug stores, open-air drive-ins, ice cream stands, and other businesses dealing with the public. Follow directions for home use, but apply more bait where indicated. **DO NOT CONTAMINATE FOOD, FEED OR UTENSILS.**

For Farm Use—Effective around barns, stables, pens, feed rooms, poultry houses, kennels and other outdoor areas. In dairy barns, treat feed room and barn floors. Do not feed sweepings to livestock. Around caged poultry, place Fly Killer on walkways in and around the building, including feed rooms and egg houses. If poultry is on ground or litter, apply only outside the building or where poultry cannot feed on bait.

ACTIVE INGREDIENTS

2,2-Dichlorovinyl dimethyl phosphate	0.46%
Related Compounds	0.04%
INERT INGREDIENTS	99.50%

Distributed by E. L. Bruce Co., Memphis, Tenn.

Special sweet bait attracts flies. Powerful DDVP kills fast—before flies can get indoors. Long lasting. For use around outside of kitchen doors, patios, backyard areas, garbage areas, outside of dairies, restaurants, and other outdoor places. Recommended and used by Bruce-Terminix, the Nationwide Pest Control Service.
