

SUP-R-PRODUCTS

DIRECTIONS:

FOR GENERAL CLEANING AND SANITIZING FLOORS, WALLS, Etc.

Clean with a solution containing 1 cup DU-ET to 5 gallon water. (1-80 ratio)

Apply solution to dirty area or surface by spray, mop or sprinkler method. Dirt film will soften immediately.

Agitate slightly and remove soiled solution with squeegee mop or vacuum.

Where a high degree of sanitation is required, rinse the cleaned surface with a solution composed of 1 ounce DU-ET for each 2 quarts of water.

GENERAL CLEANING OF RESTROOMS AND SHOWERS.

Use same procedure as above.

A solution containing 1½ ounce to 1 gallon water (1-85 ration) is recommended for cleaning and sanitizing toilet seats, benches, furniture and fixtures

CLEANER-SANITIZER

with **Germ-X** the Wonder Germicide

ACTIVE INGREDIENTS

N-Alkyl (C₁₂ .40% C₁₆ .10%) Dimethyl Benzyl Ammonium Chloride, Tetrasodium Salt of Ethylene Diamine Tetraacetic Acid. 8.3%

INERT INGREDIENTS

Water, Sodium Tripolyphosphate, Octylphenoxy Polyethoxy Ethanol, Sodium Nitrite, Essential Oil, Dye. 91.7%

USDA Registration No. 1937-10

PHENOL COEFFICIENT

Salmonella Typhosa 12
Staphylococcus Aureus 18

DISINFECTING AND SANITIZING FABRICS.

To disinfect clothing and linens, Agitate clean fabric in a solution containing 5 ounces of DU-ET to 2 gallons of water, wring out and let dry. To render diapers and other linens bacteriostatic, and to retard development of ammonia one cause of diaper rash; immerse in a solution containing 5 ounces of DU-ET for each 10 pounds of fabric.

WHAT IS DU-ET?

DU-ET is a balanced formula of modern detergents and disinfectants, combined to produce an effective cleaner - sanitizer,
