

Mr. John Vinters
John Sexton & Company
1800 Churchman Avenue
Indianapolis, IN 46203

FEB 12 1993

Dear Mr. Vinters:

Subject: Sexton Pine Oil Disinfectant
EPA Registration No. 1947-7
Your Submission Dated August 12, 1992

This is in response to your resubmission of a revised Confidential Statement of Formula and labeling for the subject product to reflect soap as an inert ingredient in this formulation. The following comments apply.

The labeling referred to above submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act as amended is acceptable subject to the following comment.

- o Include the following statement of misuse immediately beneath the "Directions For Use" heading "It is a violation of Federal Law to use this product in a manner inconsistent with its labeling".

A stamped copy of the label is enclosed for your records.

Submit five copies of the final printed label for inclusion in the product file.

The revised updated Confidential Statement of Formula dated August 12, 1992 agrees with the revised label claim and is acceptable in fulfilling our requirements in this regard.

If you have any questions about these comments, please call Marianne Clark at (703) 305-7879.

Sincerely yours,

Ruth Douglas
Product Manager (32)
Antimicrobial Program Branch
Registration Division (H7505C)

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

PINE OIL DISINFECTANT K

DIRECTIONS FOR USE

To make an emulsion for wiping down all surfaces exposed to public usage, mix 3 ounces of concentrate with 1 gallon of water. To inhibit decomposition odors in garbage cans and trash receptacles, spray containers daily with an emulsion containing 6 ounces of concentrate to 1 gallon of water. When mixed with soap it makes an excellent cleaner.

Phenol Coefficient:
S. TYPHOSA 4
A.O.A.C. Phenol Coefficient Method.

CAUTION

Avoid contact with skin, eyes, or clothing. May cause skin irritation.

ANTIDOTE. Internal: Give raw egg white, milk, mucilage, gruel, or cornstarch paste. Call a physician immediately.

External: Flush eyes with copious quantities of water for 15 minutes. For skin contact, wash with water or alcohol.
