DIRECTIONS

FOR INDOOR USE ONLY

HOUSE FLIES AND MOSQUITOES: Close all doors and windows and thoroughly spray FLY-DI in all parts of the room, particularly toward the ceiling. Allow the room to remain quiet. The room should be left closed for 15 minutes, then immediately re-ventilate and destroy the fallen insects.

CLOTHES MOTHS: First clean all articles to be protected followed by a thorough spraying with FLY-DI paying particular attention to the folds and creases. The treated articles should not be stored in a closed container until they are completely dry. A minimum amount of ventilation should be maintained during the drying process.

COCKROACHES (Common American) AND BED BUGS: Spray thoroughly with FLY-DI in all parts of the room, paying particular attention to all cracks and crevices and hiding places of insects as possible. For the control of bed bugs, the bed, mattress and seams in the mattress and all places in the room where bugs may hide should be thoroughly sprayed repeating the treatment as often as necessary.

CAUTION: Keep container closed. Do not use near food or close proximity to children. Avoid contact with vegetables. Harmful to swallow. Do not use in spray nozzles. Spray away from eyes. Do not remain in treated area. Ventilate the area after treatment is completed. Do not use in bedrooms and nurseries occupied by children before spraying.

NOTICE TO PURCHASER: See label for any restrictions, warnings or implied or expressed conditions of use other than indicated on the label. Buyer assumes all risk of use and liability of this material when used in any manner not in conformity to label instructions.

Do not reuse container. Destroy when empty.
