equivalent to 0.9% "Lycarbital" (6-pronyl piperonyl) and  
2% related compounds

EPA REG. NO. 1969-67

EST. REG. NO. 1969-ME

## DIRECTIONS

This product kills accessible stages of the insects, listed on label.

Grain to be treated should be clean, with little or no infestation and suffi-  
ciently dry to permit long term storage. It is advisable to dust the bottom  
of the bin with protectant before filling with grain. One treatment should  
be adequate to protect grain for a full storage season.

Dust thoroughly PARSONS SPECIAL GRAIN PROTECTANT #101 onto grain  
that is being put into farm grain storage at the rate of:

100 lbs. per 1,000 bushels of grain  
or 25 lbs. per 250 bushels of grain  
or 10 lbs. per 100 bushels of grain

**TO CONTROL SURFACE INSECT REINFESTATION:** Dust thoroughly Parsons  
Special Grain Protectant #101 on the surface of the stored grain including  
the sidewalls above the grain.

This product is a powerful insecticide. When applied as directed this product  
has no effect on grain germination, baking or milling qualities. Does not  
produce off-flavors in products manufactured from this treated grain.

**ENVIRONMENTAL CAUTIONS:** This product is toxic to fish and wildlife.

**CAUTION:** Avoid breathing dust. Keep out of eyes.

Keep out of any body of water. Do not contaminate water by cleaning of  
equipment or disposal of wastes. Apply this product only as specified on  
this label.

Do not re-use empty container. Destroy it by crushing. Bury or discard in  
a safe place away from water supplies.

For Fumigating Full Grain Bins for Killing Grain Weevil  
we suggest the use of PARSONS LETHOGAS
