

GENERAL INFORMATION

This is a special dry seed protectant. It is a combination insecticide and fungicide for inhibiting certain soil-born insects and disease on seed corn, beans, oats, soybeans, wheat, barley, and sorghum.

Protects germinating seeds against seed rot, damping-off diseases, kernel smut of sorghum, seed corn maggots, seed corn beetles and wireworms.

DIRECTIONS — Keep planter plates clean and free from grease or oil. Thoroughly mix correct amount of Parsons Seed Protectant with seed in planter or drill box according to following chart.

Field Seeds	Ounces of Product per Bushel or 100 lbs. of Seed
Corn	8 oz. per bu.
Soybeans	4½ oz. per bu.
Wheat, Barley, Oats	6½ oz. per cwt.
Beans and Peas	4 oz. per bu.
Sorghum	8 oz. per cwt.

NOTE— 1 oz. is equivalent to 4 tablespoonsful.

ENVIRONMENTAL CAUTIONS — This Product is toxic to fish, birds and other wildlife. Treated seeds exposed on soil surface may be hazardous to birds and other wildlife.

Dispose of excess treated seeds by burial. Keep out of any body of water. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

Do not reuse container. Destroy when empty.

CAUTION — Harmful if swallowed, inhaled or absorbed through skin. Do not breathe dust. Do not get in eyes, on skin or clothing. In case of contact with skin or eyes, flush with plenty of water; for eyes, get medical attention. Wash with soap and water after handling and before eating or smoking; wear clean clothing. Avoid contamination of feed and foodstuffs.
