FOR CLEANING SOFT SERVE MACHINES: Empty freezer and mixer. Fill mix hopper with cold water and rinse through freezer. Prepare a solution using one ounce Sanco Chloro-Terg to two and one-half gallons hot water (100 parts per million available chlorine). Mix until all powder is completely dissolved. Pour the solution into hopper and circulate for ten minutes. This action will both clean and sanitize machine. Rinse with fresh water before reuse.

Also use SANCO CHLOROTERG CLEANER FOR quickly removing lime and milk deposits from cans and utensils. Wet surface to be cleaned with water and sprinkle with SANCO CHLORO-TERG. Use sponge to rub down and rinse with fresh water. Avoid use of steel wool pads due to shedding of steel. Soak in mixture one ounce Chloro-Terg to two and one-half gallons water (100 parts per million available chlorine) for five minutes to sanitize. Rinse with fresh water before reuse.
