DIRECTIONS FOR USE

The following recommendations are intended only for weed control on non-crop areas such as rights-of-way, fence rows and similar locations. The undiluted oil should be sprayed in such a way as to coat all vegetation.

Where vegetation averages 3' in height or less: 50 gal./acre.

For taller weeds and for heavy growths such as Johnson grass: To 100 gal./acre.

Several applications may be necessary during the growing season.

NON-WARRANTY

Seller makes no warranty of any kind, expressed or implied, concerning the use of this product. Buyer assumes all risks in use or handling whether in accordance with directions or not.
