E.P.A. Reg. No. 1990-364

RABON® Livestock Dust is a [illegible] dust which can be applied by hand or [illegible] the use of self-locking dust bags. There is no withholding period from last application to slaughter.

Animal	Insect	Directions
Beef Cattle & Dairy Cattle	Horn Flies Face Flies & Lice	SELF - TREATING DUST BAG — FIELD USE — Put RABON® Livestock Dust in cotton cloth or double burlap bags or use prepackaged weather-proof cattle dust bags and hang in frequented areas or alleyways where animal brushes it off or animal rubs or [illegible] bags, exposing cloth or burlap bags and hanging. FREE CHOICE USE — Use the same dust bags as above but place in loafing sheds, barns, feed lots, near watering holes or other type shelters where animals go. The free choice use aids in the control of lice.
		HAND DUSTING — Apply approximately 2 oz. of dust by shaker can, rotary duster or by spoon to the upper portions of the back, neck and poll, and to the face as an aid in the control of face flies. Rub in lightly to carry the dust beneath the hair. Repeat as necessary.

to Control HORN FLIES and aid in the control of FACE FLIES on BEEF CATTLE and DAIRY CATTLE
