

**Precautionary Statements
Hazards to Humans and Domestic Animals**

CAUTION

May be harmful if swallowed, inhaled or absorbed through the skin. Avoid breathing spray mist and provide adequate ventilation of area being treated. Avoid contact with skin, eyes and clothing. In case of contact immediately flush skin and eyes with plenty of water. Wash thoroughly with soap and water after handling. If poisoning occurs, get prompt medical aid.

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person. Get prompt medical aid.

IF INHALED: Remove to fresh air if effects occur and call physician.

IF ON SKIN OR CLOTHING: Remove contaminated clothing. Wash skin with soap and warm water. Get medical attention if irritation persists.

IF IN THE EYES: Flush with plenty of water. Get medical attention if irritation persists.

NOTE TO PHYSICIAN: Chlorpyrifos is a cholinesterase inhibitor. Treat symptomatically. Atropine, by injection, is antidote of choice.

Do not use in food areas of food handling establishments, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed.

In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Cover exposed food. Remove pets, birds and cover fish aquariums before spraying. Do not allow children or pets to contact treated area until spray has dried.

Physical Hazards

Do not use or store near heat or open flame.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Storage and Disposal

Storage: Store in a cool dry area away from heat or open flames.
Disposal: Do not reuse empty container. Wrap container and put in trash collection.

SHAKE WELL BEFORE USING

General: Use Johnston's No-Fleas as a spot treatment to control Fleas, Brown Dog Ticks, Cockroaches, Silverfish and other insects listed. Apply this product as a coarse spray to localized areas where pests are found or may occur. Spray surfaces until wet. Repeat as needed.

JOHNSTON'S

EFFECTIVE FOR WEEKS
NET WEIGHT: 32 OZ.

TO KILL FLEAS ON LOCALIZED AREAS OF FLOOR AND FLOOR COVERINGS: Hold container 18" to 24" above area to be treated. Spray surface to slight dampness. Do not saturate. Spray along baseboards, windows and door frames, wall cracks, and local areas of floor. Open windows and allow to air dry for at least two hours. Do not use on upholstered furniture. **KEEP ALL CHILDREN, ADULTS AND PETS** out of area until completely dry. Repeat treatment as necessary.

TO KILL BROWN DOG TICKS AND FLEAS IN OTHER AREAS: Thoroughly apply as a spot treatment to infested areas such as pet beds and resting quarters, nearby cracks and crevices, along and behind baseboards, window and door frames and localized areas of floor and floor coverings where these pests may be present. Old bedding should be removed and replaced with clean, fresh bedding after treatment of the pet area. **Do not spray pets with this product.** Treat pets with a product registered for flea and tick control prior to re-entering premises.

TO KILL COCKROACHES, ANTS, CRICKETS, SILVERFISH, SPIDERS AND SOBRINGS: Spray areas where these pests are found or may hide, including dark corners of rooms and closets, cracks and crevices in walls, along baseboards and door and window frames, behind and beneath sinks, stoves, refrigerators and cabinets and garbage cans, plumbing and other utility installations. Pests driven out of hiding places should be sprayed directly. For ants, apply to ant trails, also around doors and windows and wherever else these pests may find entrance. Repeat as necessary.

FLIES AND MOSQUITOES: Use only out of doors as an aid in reducing annoyance from these insects. Spray outside of windows and door frames as well as other areas where these pests may enter the home. Also spray dark corners and localized resting areas (such as eaves) or porches and garages where these insects may congregate. Flies and mosquitoes coming to rest on treated surfaces will be killed. Repeat treatment when necessary.
