

2059-23

ACTIVE INGREDIENTS.....	10.00%
Pyrethrins.....	.20%
Piperonyl Butoxide Technical*.....	.75%
N-Butyl Bicycloheptane	
Stearbenzamide.....	.40%
Petroleum Distillates.....	8.65%
INERT INGREDIENTS.....	90.00%

\*Consists of .976% (butyl carbityl) (6-propyl piperonyl) ether and .144% related compounds.

Vaughan Seed Co. and the seller make no warranty of any kind, express or implied, on the use of this material and assume no responsibility whatsoever for any personal injury, property damage, or other type of loss resulting from the use or handling of this material. The user assumes all risks for use and handling whether in accordance with directions or not.

Never puncture or throw container into fire. Never set container on stove, radiator or places where temperature will exceed 120°F., which may cause it to burst. Cover fish bowls and remove birds for 1 hour when spraying rooms. Keep spray in constant motion at least 36 inches away from walls, fabrics, furniture, floor plastics, etc. Spraying closet may cause stains or may damage certain floors or plastics. Avoid prolonged inhalation. Cover exposed food. Can be used around food products provided they are protected from direct contact during spraying.

## HOUSEHOLD Insect Spray

CAUTION:

**KILLS QUICK**  
Net Contents 14 oz

### DIRECTIONS FOR USE

**To Spray:** Remove protective cap. Hold container upright. Point valve opening away from face, push button. Don't waste—a little goes a long way!

**For Flying Insects: Flies, Mosquitoes, Flying Beets, Bees, Wasps:** No need to spray directly at flying insects—the mist in the air will kill them. Close all doors and windows. Spray up into the air with a sweeping motion, keeping about 3 feet from interior walls, fabrics, furniture and plants. Keep room closed 15 minutes. Don't waste—a little goes a long way! About 4-5 seconds of spraying clears 1000 cubic feet.

**For Crawling Insects: roaches, waterbugs, crickets, spiders:** Spray hiding places such as baseboards, bed floor boards, moist places, openings around sinks, drains and pipes, behind bookcases, cabinets, and other storage areas, hitting as many bugs as possible. Repeat as needed.

**Ants:** Spray hill, trails around window sills and openings around pipes and baseboards where ants crawl, hitting as many as possible.

**Spiders, Centipedes, Saw Bugs:** Spray webs and the places where these pests crawl. Hit as many as possible. Repeat as needed.

**Excess Bugs:** Hit these bugs directly with spray on sections of floor, baseboards, shelves and carpets. Repeat spraying at frequent intervals.

**Bedbugs:** Spray baseboards, moldings, floor boards. Spray mattresses, particularly around seams and tufts. Take beds apart and spray into all joints. Repeat spraying at frequent intervals.

**Flies:** Spray floors, floor coverings, and sleeping quarters for pet. Repeat spraying as often as necessary. Do not spray pets.
