DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Spray Spray to Kill Fleas, Mosquitoes, Gnats and Flying Insects. Shake container gently to be sure contents are uniformly mixed. Pour in sprayer. Close doors and windows and turn off ventilating equipment. Mist all parts of the room or area of a structure of surface area of 1000 sq. ft. per 1000 cubic feet of space. Repeat application. Repeat room cleanup by 15 minutes. Ventilate prior to re-entry. Repeat as necessary.

Control Sprays to Kill Fleas, Mosquitoes, Gnats and Flying Insects of Crawling Insects. Shake container gently to be sure contents are uniformly mixed. Apply as a coarse spray to all cracks and crevices in woodwork, baseboards, door frames, pipes and in all places where these insects nest, including on many insects as possible with the spray. Repeat applications as often as necessary to gain control. For grain weevils, beetles, grain mites, flour beetles and grain moths, apply as a coarse spray to all infested surfaces, insect killing plates and insect removal of the rate of one gallon of this spray on 750 square feet of area. Repeat when necessary.
