DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. As a precaution, a blind ophthalmic ointment should be placed in the eyes prior to bathing to prevent possible irritation. Thoroughly wet the entire hair-coat with warm water and then apply enough shampoo to make a lather and work thoroughly into hair-coat. For best therapeutic effects, allow lather to remain in contact with skin for five minutes before rinsing. Rinse thoroughly. Repeat necessary as needed, depending on severity of affliction and response. 85-0949-01
