DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. As a precaution, a label epidemic statement should be placed in the eyes prior to brushing to prevent possible irritation. Thoroughly wet the entire hair coat with warm water and then apply enough shampoo to make a lather and work thoroughly into hair coat. For best therapeutic effects, allow lather to remain in contact with skin for five minutes before rinsing. Rinse thoroughly. Repeat semiweekly or weekly, depending on severity of infestation and response. 85-8958-01
