

PRECAUTIONARY STATEMENTS
CAUTION

HUMAN: Harmful if swallowed or inhaled. Avoid breathing mist. Avoid contamination of food. Wash hands with soap and water after using.

ANIMAL: Avoid treatment of nursing kittens and puppies. If treatment is necessary, spray on tips of fingers and rub into coat.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Keep out of lakes, streams, ponds, tidal marshes and estuaries. Do not apply where runoff is likely to occur.

DIRECTIONS FOR USE
CATS and DOGS

It is a violation of federal law to use this product in a manner inconsistent with its labeling. Cover animal's eyes with hand and with a firm fast stroke to get a proper spray mist. Spray head, ears and chest until damp. With finger tips rub into face and around mouth, nose and eyes. Then spray neck, middle and hind quarters, finishing legs last. For best penetration of spray to the skin, direct spray against the natural lay of the hair. On long haired dogs, rub your hand against the lay of the hair, spraying the ruffled hair directly behind the hand. Make sure spray thoroughly wets ticks. Repeat treatment as needed.

Directions for Use Continued
PUPPIES and KITTENS

Treat same as cats and dogs except nursing puppies and kittens, spray only along back or on your finger tips and rub in with your finger tips.

PETS SLEEPING QUARTERS

Spray around baseboards, windows, door frames, wall cracks and local area of floors. If mosquitoes, gnats, or flies are present, spray lightly into the air. Repeat as needed. The pet bedding should be sprayed, making sure the area beneath the bedding is sprayed, too. After spray has dried, remove old bedding and replace with fresh bedding. Treat pets with one of our registered Flea and Tick Control products before allowing them to enter treated area.

STORAGE AND DISPOSAL

Storage: Store in a cool dry area away from heat or open flame.

Disposal: Do not re-use empty container. Wrap container and put in trash collection.
