**DIRECTIONS FOR USE CATS AND DOGS:** It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Cover animal's eyes with hand and spray head, ears and chest until damp. With finger tips rub into face and around mouth, nose, and eyes. Then spray neck, middle and hind quarters, finishing legs last.

For best penetration of spray to the skin, direct spray against the natural lay of the hair. On long haired pets rub hand against lay of the hair, spraying hair directly behind the hand. Make sure spray thoroughly wets ticks. Repeat as needed. For best appearance brush or comb when dry.

**PUPPIES AND KITTENS:** Treat same as cats and dogs except nursing puppies and kittens, spray only along back or on your fingers and rub in with tips.

**PETS' SLEEPING QUARTERS:** Spray around base boards, windows, door frames, wall cracks and local area of floors. If mosquitoes, gnats, or flies are present, spray lightly into the air. Repeat as needed. Pets' bedding should be sprayed, making sure the area beneath the bedding is sprayed. After spray has dried, replace old bedding with fresh. Treat pets with a registered Beecham Flea and Tick Control product before allowing them to enter treated area.
