DIRECTIONS FOR USE

CATS AND DOGS

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Cover animal's eyes with hand and rub a firm fast stroke. To get a proper spray mist, spray head, ears and chest and damp. With finger tips rub into face and around mouth, nose, and eyes. Then spray neck, middle and hind quarters, finishing legs last.

For best penetration of spray to the skin, direct spray against the natural lay of the hair. On long haired dogs, rub your hand against the lay of the hair, spraying the matted hair directly behind the hand. Make sure spray thoroughly wets ticks. Repeat treatment as needed.

For improved appearance, wipe off excess with towel and comb or brush pet. Repeat grooming when dry.

PUPPIES AND KITTENS

Treat same as cats and dogs except nursing puppies and kittens. Spray only along back or on your finger tips and rub in with your finger tips.

PETS' SLEEPING QUARTERS

Spray around base boards, windows, door frames, wall cracks and focal area of floors. If mosquitoes, gnats, or flies are present, spray lightly into the air. Repeat as needed. The pet's bedding should be sprayed, making sure the area beneath the bedding is sprayed, too. After spray has dried, remove old bedding and replace with fresh bedding. Treat pets with one of our registered flea and tick control products before allowing them to enter treated area.
