**PRECAUTIONARY STATEMENTS:**

Hazards to Humans and Domestic Animals

**Caution**

**HUMAN:** Harmful if swallowed or inhaled. Avoid breathing mist. Avoid contamination of food. Wash hands with soap and water after using.

**ANIMAL:** Do not use on puppies and kittens under 12 weeks of age. Consult a veterinarian before using this product on debilitated, aged, medicated, pregnant or nursing animals. Sensitivities may occur after using ANY pesticide product for pets. If signs of sensitivity occur, bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.

**ENVIRONMENTAL HAZARDS:** This product is toxic to fish. Do not add directly to water. Do not apply where runoff is likely to occur.

**FIRST AID**

**IF SWALLOWED:** Call a physician or Poison Control Center.

**IF IN EYES:** Flush eyes with plenty of water. Call a physician if irritation persists.

**IF ON SKIN:** Wash with plenty of soap and water. Call a physician if irritation persists.

**STORAGE AND DISPOSAL**

**STORAGE:** Store in cool, dry area.

**DISPOSAL:** Do not reuse container. Rinse thoroughly and wrap container in several layers of newspaper and discard in trash.

Div. of Pfizer Inc, NY, NY 10017

**DIRECTIONS FOR USE:**  
**CATS AND DOGS**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Cover animal's eyes with hand and with a firm, fast stroke to get a proper spray mist, spray head, ears and chest until damp. With fingertips rub into face and around mouth, nose and eyes. Then spray neck, middle and hindquarters, finishing legs last. For best penetration of spray to the skin, direct spray against the natural lay of the hair. On long-haired dogs, rub your hand against the lay of the hair, spraying the ruffled hair directly behind the hand. Make sure spray thoroughly wets ticks. For improved appearance, wipe off excess with towel and comb or brush pet. Repeat grooming when dry. Do not use this product in or on electrical equipment due to the possibility of shock hazard. Apply every 14 days.

**PET'S SLEEPING QUARTERS**

Spray around baseboards, windows, door frames, wall cracks and local area of floors. If mosquitoes, gnats, or flies are present spray lightly into the air. Repeat as needed. The pet's bedding should be sprayed, making sure the area beneath the bedding is sprayed, too. After spray has dried, remove old bedding and replace with fresh bedding. Treat pets with one of our registered flea and tick control products before allowing them to enter treated area.

Sold exclusively through veterinarians

This product is restricted for sale exclusively through veterinary clinics, practices and hospitals.
