

RESIDUEX

MALATHION — PYRENONE RESIDUAL SPRAY

RESIDUEX is a deodorized base oil solution for indoor-outdoor application as a surface spray. For flying insects the residues formed by the sprays are effective against resting house flies, gnats and mosquitoes. Use in spot treatment for the control of cockroaches, silverfish, crickets.

ACTIVE INGREDIENTS:

Malathion (O, O-Dimethyl Dithiophosphate of Diethyl Mercaptosuccinate).....	2.00%
Aromatic Petroleum Derivative Solvent	6.21%
Piperonyl Butoxide Technical*	0.125%
Pyrethrins	0.050%
Petroleum Distillate	91.615%

*Equivalent to 0.10% of (butylcarbityl) (6-propylpiperonyl) ether and to 0.025% of related compounds.

CAUTION: KEEP OUT OF REACH OF CHILDREN. Harmful if swallowed. Avoid breathing spray mist. Avoid prolonged or repeated contact with the skin. Wash thoroughly after using. Do not store near heat. Do not spray into open flame. Cover all exposed food and foodstuffs before application. Cover or remove fish bowls and aquariums before applying. Avoid contamination of milk, milking equipment, feed or drinking water during residual spray applications. Cover all exposed food, feed, milk, and equipment.

DIRECTIONS FOR USE:

Flying Insects: For indoor control of flies, mosquitoes, gnats, and certain other flying pests, direct the spray toward the upper portions of the room and saturate the atmosphere with the mist, using 1 to 2 ounces to each 1000 cubic feet of space. Leave room closed for 15 minutes to ½ hour after which air out thoroughly before occupying. For outdoor aid in the control of flies, mosquitoes and gnats, and for temporary reduction in the annoyance of flies, mosquitoes and gnats around stables, barns, bakeries, food processing plants, spray the exterior walls to point of run-off. Flying insects hit by the spray will be killed. Residue left on the walls, will control resting insects.

Crawling Insects: To control roaches, silverfish, crickets, and spiders, spray infested area thoroughly and direct the liquid behind baseboards, moldings, cabinets, shelves, sinks, door and window frames, and pipes, toward drains and dark corners, and into cracks, crevices, recesses and similar hiding places.

For use as a residual spray to control resting flies, gnats, mosquitoes, and certain other small flying insects, spray walls and ceilings of barns and outbuildings to point of run-off.
