USE DIRECTIONS:

For light duty cleaning, sanitizing and deodorizing, use two ounces per gallon.

For heavy duty cleaning and disinfecting, use 4.5 ounces per gallon. For best results, use Fleet with a cloth or mop and apply to walls, floors and other hard surfaces. If used to sanitize food equipment and CLEANER other food contact items, limit the level to 200 ppm of quaternaries $(1\frac{1}{2}$ oz. per gal.).

For extra heavy industrial eleaning, and sanitizing, use a second application.

Do not mix with soap or anionic solutions.

FLEET is non-corrosive in use dilutions on inanimate surfaces.

Rinse empty container thoroughly with water and discard it.

FLEET is a heavy duty cleaner and disinfectant designed for general purpose industrial use, where heavy duty cleaning is of prime importance. When used as directed, it will remove most dirt and grime a single simple application. When used for industrial cleaning, follow the use directions shown below, for best results. Not recommended for pseudomonas.

DANGER

Keep out of reach of children. Causes severe eye and skin damage. Do not get in eyes, on skin or on shield, and rubber gloves when 0.8% handling. Harmful or fatal if swallowed. Avoid contamination of food.

FIRST AID

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash all contaminated clothing be-100.0% fore reuse. If swallowed, do not induce vomiting. Drink large quantities of fluid, and call a physician
