Easy to apply

Non-staining

Odorless

DAVISON Dri-Die

NET WT. 5 LBS.

INSECTICIDE

DAVISON CHEMICAL DIVISION

REGISTERED

Davison Dri-Die kills insects on contact through a physical-chemical action. It is odorless, non-staining—may be used anywhere in the home, factory, or other site without damaging materials of any kind. It kills roaches on contact, protects against entrance of dry wood termites into buildings.

DIRECTIONS FOR USE:

Dry Wood Termites—Use an electric or hand-operated rotary duster to distribute Dri-Die Insecticide 67 through an entry, e.g. crawl hole into the attic and the crawl space of the building. Rate of application is recommended at one 1/2 pound per 1,000 sq. feet floor area. All wood surfaces must be covered. All vent and louvres on the windward side to be closed.

Roaches German, Brown-Banded, Oriental—Distribute Dri-Die Insecticide 67 at the rate of 2 ounces per 100 sq. ft. of floor area in visible concentration beneath and behind appliances, e.g. refrigerators, stoves. Apply a continuous visible film on and behind all moldings, shelving edges, around pipe openings, in cracks and crevices where the insects may hide. On severe infestations apply Dri-Die Insecticide 67 in crawl spaces, attics, behind walls, cabinets, at the rate of 16 ounces per 1,000 sq. feet of floor area. Repeat as necessary.

Flies—Surfaces of kennels should be dusted at rate of one ounce per 50 square feet. Heavily infested lawns, basements, and crawl spaces should be dusted at rate of 16 ounces per 1000 square feet. Repeat as necessary.

CAUTION. Avoid Prolonged Inhalation

ACTIVE INGREDIENTS: Amorphous Silica Gel - 95.3%*
Ammonium Fluosilicate - 4.7%
*S.O. 90%
