PRECAUTIONARY STATEMENT

HAZARDS TO HUMANS AND DOMESTIC ANIMALS--CAUTION: Harmful if swallowed. May cause irritation of nose, throat and skin. Do not breathe dust or spray mist. Avoid contact with skin, eyes and clothing. Wash thoroughly after handling. Food utensils such as teaspoons and cups should not be used for food after use with pesticides. Keep pets and children out of sprayed area until dry. ENVIRONMENTAL HAZARD: This product is toxic to fish. Do not apply directly to water or wetlands. Do not contaminate water by cleaning of equipment or disposal of waste. This product is highly toxic to bees exposed to direct treatment or residues on crops. Protective information may be obtained from your Cooperative Agricultural Extension Service. Do not use when the value of bees as pollinators is more important than insect control.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL: Do not contaminate water, food or feed by storage or disposal. Store in tightly closed, original container in a locked area away from children and domestic animals. Do not reuse container. Securely wrap closed container in several layers of newspaper and discard in trash.

Control common insects and diseases in the garden before the insects become numerous or the diseases apparent. Keep all plant surfaces protected throughout the growing season. Apply regularly at 7 to 14 day intervals. During humid periods and periods of new growth apply every 4 to 5 days.

DUSTING: Material is ready for use and can be dusted from the sifter can or transferred to a dust gun. The best time to apply is early morning or late afternoon.

SPRAYING: Prepare a thin, smooth paste by mixing a little water with 5 tablespoons of material. Add paste to water in sprayer to make 1 gallon. Mix thoroughly. Apply with sprayer designed for garden use. 1 lb. makes 10 gallons of spray. ALWAYS SPRAY WHILE USING. Do not store mixed spray.
