DIRECTIONS FOR USE

To Operate. Remove cap. Hold spray can upright. Point valve opening away from face. For **long range** spraying (10 feet or more) press valve all the way down, aiming directly at nest or area to be sprayed. For **short range** spraying, press valve lightly. Apply until nest or infested area has been thoroughly wetted.

FOR OUTDOOR USE ONLY — DO NOT USE INDOORS
HORNETS, WASPS, BEES, YELLOW JACKETS. Direct stream at nest, especially the opening, until nest is thoroughly wet. Apply in evening or early morning when these pests are less active and are in, or about, the nest. Also spray, until thoroughly wet, door sills, window sills, screens, rafters, eaves, cracks, holes in the ground, under rocks, and other surfaces outdoors where these insects and other insects such as **ants, clover mites, earwigs, flies, mosquitoes, night-flying moths, spiders** congregate or crawl.

CAUTION. Harmful if swallowed, inhaled, or absorbed through the skin. Avoid prolonged inhalation of spray mist. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling and before eating or smoking. Do not contaminate feed, water, or foodstuffs. Do not apply to humans or pets. Keep out of reach of children. Avoid contact with eyes and clothing. Do not spray over or near small lakes or fish ponds containing valuable fish.

WARNING. Contents under pressure. High temperature may cause bursting. Do not expose to direct sunlight, radiators, stoves, hot water, or other sources of heat. Do not puncture or burn empty container.

NOTICE. Seller makes no warranty, express or implied, concerning effects of use of this product other than those specified on this label. Buyer, or User, accepts all responsibility for results due to misuse of this product.
