

## SNAIL & SLUG KILLER

READ ENTIRE LABEL CAREFULLY BEFORE USE.  
OBSERVE ALL CAUTIONS. USE ONLY AS DIRECTED.

### DIRECTIONS FOR USE

Water the treated area thoroughly before applying SCIENCE Snail & Slug Killer. Then apply this product at the rate of 1 pound per 1,200 square feet of treated area. Apply the product evenly over the area to be treated. Or place this product in piles where pests travel and congregate.

Special care should be taken to treat bed plants and other low growing plants where pests feed at night. Pests stop feeding soon after treatment. However, it may be delayed 3 to 5 days. Repeat application every 2 weeks, if needed, to maintain effective control.

**IMPORTANT:** Do not use in areas where edible products are grown, such as berries, fruits, and grains.

### CAUTION MAY BE HARMFUL IF SWALLOWED

Wash thoroughly after handling. Avoid contact with skin, eyes, nose or throat. Avoid contamination of food, feedstuffs, and drinking water supplies. If swallowed, induce vomiting by giving 1/2 cup of water for each spoonful of salt in a glass of warm water. Do not induce vomiting if unconscious.

**NOTE TO PHYSICIAN:** Active ingredient is cholinergic. If fatal, treat symptomatically. Atropine is antidote.

Keep children and pets off treated area until this material is washed into soil and grass is dry.

This product is toxic to fish and shellfish. Keep out of streams, ponds, lakes, and other natural water bodies. Do not use equipment to dispose of wastes. Burn wastes in non-enclosed area from water supplies. Do not empty containers by burning or pouring with waste.

**NOTICE:** Seller makes no warranty or guarantee, expressed or implied, in any way that any of the products other than those specified on this label are included in or supplied with any container of this product.
